AUTHOR	Nowak, Jeffrey M.
TITLE	Panorama 2000: Student Enrollment Report.
INSTITUTION	Palm Beach Community Coll., FL.
PUB DATE	2000-12-00
NOTE	244p.; Produced by Palm Beach Community College, Office of Institutional Effectiveness.
PUB TYPE	Numerical/Quantitative Data (110) -- Reports - Descriptive (141)
EDRS PRICE	MF01/PC10 Plus Postage.
DESCRIPTORS	Community Colleges; *Enrollment Trends; *Institutional Characteristics; *Outcomes of Education; *School Demography; Two Year College Students; Two Year Colleges
IDENTIFIERS	*Palm Beach Community College FL

ABSTRACT

Panorama 2000 presents information on Palm Beach Community College's (PBCC's) Florida, enrollment characteristics for the 1999-2000 reporting year. In addition, this report serves to support PBCC's commitment to collect and provide useful data that is systematic, broad-based and interrelated for the purpose of educational decision-making. The introduction includes a general profile of PBCC, its history, philosophy and mission, campus locations and descriptions, and general characteristics of PBCC's service district. The Headcount Enrollment section includes statistics on opening-term credit and college preparatory enrollment for each term; credit and prep enrollment by campus for the fall and winter terms; weekend, mini-term and PSAV headcount; and annual district-wide unduplicated headcount. The Demographics & Characteristics section shows a breakdown of PBCC's credit and prep enrollment in terms of race and ethnicity, gender, classification, class level, general program of study, full-time/part-time status, age, residency and high school of origination. The Hours & FTE section provides details on enrollment by campus, term, department, and funding category in terms of student semester hours, credit hour equivalency (CHE) and fulltime equivalency (FTE). The Student Performance section addresses enrollment and completions in specific program areas, graduation and placement rates, and grades earned by the students. Appendices provide detailed data in tabular format on much of the information presented in this report. (JA)

Welcome to Panorama 2000!!

Panorama 2000 presents information on Palm Beach Community College's enrollment characteristics for the 1999-2000 reporting year. In addition, this report serves to support PBCC's commitment to collect and provide useful data that is systematic, broad-based and interrelated for the purpose of educational decision-making.

There are five main sections in *Panorama 2000*: *Introduction, Headcount Enrollment, Demographics & Characteristics, Hours & FTE* and *Student Performance*.

- The ***Introduction*** includes a general profile of PBCC, its history, philosophy and mission, campus locations and descriptions, and general characteristics of PBCC's service district, Palm Beach County, Florida.

- The ***Headcount Enrollment*** section includes statistics on opening term credit and college preparatory enrollment for each term; credit and prep enrollment by campus for the Fall and Winter terms; weekend, mini-term and PSAV headcount; and annual districtwide unduplicated headcount.

- The ***Demographics & Characteristics*** section shows a breakdown of PBCC's credit and prep enrollment in terms of race and ethnicity, gender, classification, class level, general program of study, full-time/part-time status, age, residency and high school of origination.

- The ***Hours & FTE*** section provides details on enrollment by campus, term, department and funding category in terms of student semester hours (SSH), credit hour equivalency (CHE) and full-time equivalency (FTE).

- The ***Student Performance*** section addresses enrollment and completions in specific program areas, graduation and placement rates, and grades earned by our students.

In addition, terminology that is unique to the reporting of enrollment statistics has been defined in the ***Glossary of Terms***. Finally, the ***Appendices*** provide detailed data in tabular format on much of the information presented in this report.

What's New in Panorama 2000

As you may know, *Panorama* recently underwent the first stage of a radical formatting change. The restructured *Panorama '99* was largely born from reader commentary on both formatting and information. The result was a much more comprehensive and user-friendly (and thicker!) *Panorama* than ever before. Response has been very positive, and therefore, this year we will be introducing a few new data elements and modernizing some old ones.

Here are some of the more noticeable changes you will see in *Panorama 2000*:

New data sources

The changeover from the old mainframe to the new PantherNet required us to pull data from different sources this year. In fact, there were very few data elements where the source *did not* change. The student databases that are submitted to the state five times a year became a workhorse data set for us, as they were used to calculate many data elements, including term credit/prep headcount, demographics, program enrollments and completions, and grade distributions. Some data that we used to get from mainframe reports are now pulled directly from PantherNet. Other data were gathered from XSR053J1, a new program developed by Information Technology to replace the old SR265PC program, and also from STR906J1, a consortium program that replaced the SR010PL enrollment report.

History

In the past, the History section in *Panorama* has been from the College's catalog, with a few minor modifications. This year, we went back to old catalogs – from as far back as 1937 – as well as a few other historical documents. From these, we created what we think is a quite interesting history of PBCC, and in doing so we also uncovered a few facts about the College that many of us may have never known.

Also, we added a small historical perspective section that compares where we stand today in various key statistics against the comparable numbers from 1933.

Headcount enrollment

Prior to this year, much of our headcount data was based strictly on credit students, meaning that students who were enrolled only in preparatory classes were left out of many of our term headcount figures. However, this year, we decided to start including prep-only students in the figures. This was done for two reasons:

- In the 1999-2000 reporting year, the state began calculating full-time equivalency for college preparatory using the credit formula instead of the non-credit formula. This also means that enrollment hours were expressed in terms of student semester hours (SSH) and not credit hour equivalents (CHE) beginning last year.
- Because most of our prep students are seeking a degree either at PBCC or another postsecondary institution, it makes sense to include prep-only students with the credit headcount figures.

Unfortunately, because of the difficulty (and in some cases, impossibility) of recalculating past data to include prep-only students, figures for terms prior to Summer 1999 will continue to count only credit students and not include the prep-only students. As a result, please use caution when reading these figures, as a direct comparison between 1998-99 and 1999-2000 term headcount figures will be difficult to do because of this change.

Summer enrollment

The switch to PantherNet also necessitated a change in how we calculate Summer term headcount. Because PantherNet was not designed to split Summer into two distinct terms, *Panorama* will now look at the Summer term as one term instead of breaking it into 'A' and 'B' components. We considered using term session codes to roughly duplicate the 'A' and 'B' figures, but this would leave out many non-credit courses that do not begin and end on the exact Session 1, 2 and 3 dates. Therefore, we felt it would be best to begin considering Summer as one term for all data elements.

Mini-term enrollment

For the first time, *Panorama* will recognize and report enrollment for the ever-more-popular 8-week, 12-week and Express terms for both Fall and Spring. After all, more than 300 FTEs are generated at PBCC annually in these mini-terms.

Postsecondary Adult Vocational Headcount

Given all the vocational programs that have been and will continue to be transferred from the Palm Beach County School Board, we expect that the bulk of our enrollment increase in the next few years will be in the Postsecondary Adult Vocational (PSAV) area. PBCC generated more than 800 FTE in this category (including Apprenticeship) in 1999-2000, and early indications are that this number could increase greatly in the coming year. Therefore, we feel that it is important to report term headcount districtwide and by campus for students in PSAV courses.

Departmental enrollment

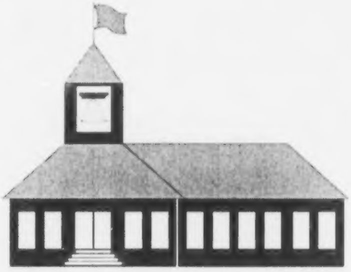
The switch to PantherNet also brought about the end of departments as we knew them. Starting this year, *Panorama* will view departmental enrollment hours by their state ICS codes rather than the arbitrary assignment of department codes that we had used previously. As a result, we can more easily split Advanced & Professional enrollment from vocational areas. This method of reporting also gives us a better indication of how the state breaks down enrollment hours.

Expanded appendices

Included this year are 15 appendices that support the graphs in the body of the report, as well as provide more detail for those who need it. All of last year's appendices return this year with five new sections – three end-of-term headcount reports, a mini-term enrollment report covering 8-week, 12-week, and Express Term enrollment, and a PSAV enrollment report. Some appendices have also been expanded and reformatted for this issue.

pbcc

Introduction



Palm Beach Community College At a Glance

President: Dennis P. Gallon, Ph.D.

President's Staff (as of Sept. 2000):

Richard A. Becker, B.A.	Vice President, Administration and Business Services
Vernon E. Haley, M.S.	Vice President, Student Services
Sharon A. Sass, Ph.D.	Vice President, Academic Affairs
John M. Schmiederer, Ed.S.	Vice President, Workforce Development
Jack T. Tinsley, M.B.A.	Associate Vice President, Information/ Technology
Patricia J. Anderson, Ed.D.	Provost, Palm Beach Gardens
R. Celeste Beck, Ed.D.	Provost, Boca Raton
Helen B. Franke, Ed.D.	Provost, Belle Glade
Maria M. Vallejo, Ph.D.	Provost, Lake Worth
Ellen Grace, Ed.D.	Director, Human Resources
William C. Jenner, B.A.	Executive Director, PBCC Foundation
Erin S. McColskey, M.S.	Director, Governmental Relations and Executive Assistant to the President

Locations:

Lake Worth/District Office
4200 Congress Avenue, Lake Worth, Florida 33461-4796
Palm Beach Gardens
3160 PGA Boulevard, Palm Beach Gardens, Florida 33410-2893
Belle Glade
1977 College Drive, Belle Glade, Florida 33430-3699
Boca Raton
3000 Saint Lucie Avenue, Boca Raton, Florida 33431-6490

Classes Began: September 1933

Accreditation: Commission on Colleges of the Southern Association of Colleges and Schools (Some vocational programs are also accredited by separate bodies.)

Type of Institution: Public community college

Completion Awards Offered:

- Associate in Arts
- Associate in Applied Science (beginning Fall 2000)
- Associate in Science
- Postsecondary Vocational Certificate
- Postsecondary Adult Vocational Certificate
- Advanced Technical Certificate
- Applied Technology Diploma (beginning Fall 2001)

Calendar: Semester plan with summer terms

1999-2000 Enrollment:

Total	40,431
Credit/College Preparatory	*25,798*
Noncredit	*14,633*
Opening Fall 1999 (credit/prep)	16,457

1999-2000 Awards:

Total awards:	2,273
Associate in Arts	*1,458*
Associate in Science	*425*
PSV/PSAV Vocational Certificate	*359*
Advanced Technical Certificate	*8*
Inactive Programs	*23*

A Brief History

PBCC

1930s

The idea of a junior college in Palm Beach County came about largely as a community response to the problems of the Great Depression. Young men and women, unable to secure employment following graduation from high school, were expressing an interest in continuing their education. However, the economy of Palm Beach County had been in decline since 1925, and many parents found it impossible to send their sons and daughters away to a university for four years of college.

West Palm Beach civic leaders, led by Joe Youngblood, county superintendent of public schools, and Howell L. Watkins, principal of Palm Beach High School, met in 1933 to help establish a junior college as part of the educational system of Palm Beach County. An advisory board was organized from the local civic groups, and the University of Florida assisted in organizing a college by advising what courses to offer and by tentatively approving the courses and instructors.

Palm Beach Junior College was thus founded as Florida's first public community college under the jurisdiction of the Palm Beach County Board of Public Instruction. Classes began in September 1933 with 41 students.

In the beginning, PBJC was a coeducational day-student junior college with primary emphasis on preparation for upper-division work in colleges and universities. For the first 15 years, the College scheduled classes in its building on Gardenia Street and at the adjacent Palm Beach High School in West Palm Beach, where Mr. Watkins served as both dean of the College and principal of the high school.

The first graduation exercises were held on June 5, 1936. Three students were awarded the associate in arts degree.

1940s

In 1942, PBJC received accreditation from the Southern Association of Colleges and Secondary Schools (now Southern Association of Colleges and Schools). Previously, approval was given by various bodies, including the Florida Association of Colleges and Universities and the State Board of Education, and credit for work completed at PBJC was given only on a conditional basis by the University of Florida and the Florida State College for Women (now Florida State University).

The 1945 session of the Florida Legislature established the Foundation Program (later Minimum Foundation Program) to allow state funding for education. Two years later, a bill was passed to include junior colleges in the program. As a result, in December 1947 Palm Beach Junior College, which already held the distinction as Florida's first public junior college, became the first public junior college approved by the State Board of Education for participation in the Foundation Program. Under the provisions of this law, an advisory committee for the College, made up of cultural, business and civic leaders, was appointed by the State Board.

The year 1947 also marked a great milestone in the history of the College, as PBJC made plans to move from its cramped quarters on Gardenia Street to a spacious 21-acre site at Morrison Field, then a deactivated World War II Air Force Base and now Palm Beach International Airport. On February 7, 1948, under the direction of its first president, Palm Beach County school superintendent John I. Leonard, PBJC was operating with a full schedule on its new campus on the western edge of West Palm Beach.

1950s

Reactivation of the base at Morrison Field for the Korean Conflict forced the College to surrender title of the property back to the Air Force, and PBJC faced a major crisis. The depression had long since vanished in the wave of prosperity brought on by World War II, and some community leaders were in favor of allowing PBJC to dissolve.

But spirited support by college students and faculty convinced the community that PBJC was a living, vital part of the growth pattern of the area. When it was apparent that the only location available was the one PBJC formerly used and shared with Palm Beach High School, the Town of Lake Park offered the Board of Public Instruction the use of its town hall on Park Avenue. Upon recommendation of the College Advisory Committee and the concurrence of state department officials, the BPI accepted the Lake Park Town Hall as the new home of Palm Beach Junior College.

The building was remodeled to meet College needs, and classes began at the new facility in September 1951. The space, however, proved to be inadequate, as PBJC was forced to carry on a curtailed program in restricted quarters. Enrollment and faculty dwindled, as PBJC's student body fell by more than half in that first semester in Lake Park. Serious consideration was given for further development of the Lake Park site, with the thought that the town could become the permanent location for PBJC. The addition of space rented in the Community Church of Lake Park allowed the College to increase its enrollment to the full capacity of its facilities until September 1955, when PBJC had to refuse admission to over 100 students. Soon, the College was on the move once again.

When the Palm Beach County Commission donated 114 acres of land on the western shore of Lake Osborne, west of Lake Worth, to the college in 1955, PBJC had finally found a permanent home. The State Legislature approved more than $1 million for buildings, and construction soon began on PBJC's first permanent campus, which opened at the corner of Lake Worth Road and Congress Avenue to 651 students in September 1956.*

In 1958, Dr. Leonard retired, and Harold C. Manor became Palm Beach Junior College's second president.

1960s

Under the leadership of Dr. Manor, the College continued to develop an excellent academic reputation as well as strengthened its role in preparation of students for upper division work. At the same time, PBJC developed many specialized, business, technical and professional programs designed to be completed in one to two years. Before long, the College had expanded to nearly full use of its Lake Worth site. By the end of the decade, the College already had purchased land in Palm Beach Gardens for a second campus.

Black students were first accepted to the College in 1961, and four years later, in 1965, the Board of Public Instruction merged Roosevelt Junior College, a seven-year-old black institution located in West Palm Beach, with Palm Beach Junior College. The merger of PBJC with Roosevelt, which was under the presidency of Britton G. Sayles, brought its properties, students and six of its 18 full-time faculty members to a united Palm Beach Junior College campus between June and August of that year.

Public junior colleges in Florida were operating under the county boards of public instruction until legislative action in February 1968 placed them under the jurisdiction of district boards of trustees. On July 1, 1968, the College Advisory Committee was dissolved and the College, which had been governed for 35 years by the Palm Beach County Board of Public Instruction, came under the authority of the Palm Beach Junior College District Board of Trustees.

1970S

Palm Beach Junior College opened the 1970s serving nearly 5,500 credit students – more than eight times the enrollment since the Lake Worth campus opened in 1956. By the early 1970s, satellite centers were established in temporary facilities in Belle Glade, Boca Raton and northern Palm Beach County.

The center in Belle Glade opened first, in Fall 1972. With the aid of the Glades Steering Committee, temporary facilities were obtained in the Belle Glade National Guard Armory and the north wing of Glades General Hospital. By 1974, classes were available at several locations, including Glades Central High School and the Glades Correctional Institute in Belle Glade, the Alexander D. Henderson University School at Florida Atlantic University in Boca Raton, and at four sites in northern Palm Beach County, including the Palm Beach Gardens and Suncoast High Schools.

Groundbreaking for the first buildings at the permanent Belle Glade location took place on a 40-acre site in 1976. Classes began in the new two-building, 12-classroom facility in January 1978.

Meanwhile, the North and South centers continued to develop through the 70s and into the 80s. Much of the growth during this time was the result of efforts by Edward M. Eissey, a former Board of Trustees member and PBJC alumnus, who became the College's third president on September 1, 1978, following the retirement of Dr. Manor.

1980s

Vigorous expansion in the areas of Continuing Education, service to senior citizens, new and innovative educational programs, increased cooperation with business and industry, closer ties with cities and the county, and unflagging zeal in pursuit of college objectives at both county and state levels became hallmarks of Dr. Eissey's administration. By 1987, PBJC was serving more than 42,000 students annually, 20,000 of whom were enrolled in non-credit vocational, continuing education, and avocational classes and programs.

At the beginning of the 1980s, problems with repair, renovation and equipment were becoming major issues for the College. To solve the new problems facing the College, PBJC asked the voters of Palm Beach County for help. The state legislature granted the College permission for a special election, and voters answered by granting a two-year half-mill levy by a wide margin on March 11, 1980.

---

* Some data sources indicate the Fall 1956 opening enrollment may have been as high as 745.

Facilities expansion continued as credit enrollment passed the 10,000-student mark in the Fall term of 1980. Construction began on the new PBJC North campus on PGA Boulevard in Palm Beach Gardens on July 26, 1980, with classes beginning on the 108-acre facility on May 6, 1982. In the fall term of 1983, PBJC South used portable classroom buildings on a 50-acre site leased from Florida Atlantic University in Boca Raton. In 1986, state funding for the first permanent classrooms was provided, and the first building at PBJC South opened in 1989.

By the end of the decade, the College was serving nearly 15,000 credit students per term.

In 1988, the Board of Trustees approved Dr. Eissey's recommendation for a name change from Palm Beach Junior College to Palm Beach Community College to more accurately reflect its comprehensive mission and the expansion of its programs and services.

1990s

In 1991, PBCC North was renamed the Edward M. Eissey Campus in honor of the College's president. Also that year, Palm Beach Community College came full circle when the Palm Beach County School Board returned the original PBJC building on Gardenia Street to the college for a nominal payment of $10. Plans were immediately made to restore and renovate the historic structure to use once again as an educational facility. Restoration was completed in 1997, and the building is now the de Hoernle Historical Building, housing the PBCC Foundation offices as well as classrooms to serve students in downtown West Palm Beach.

Meanwhile, the College continued to expand its offerings to include over 100 associate in arts, associate in science and certificate programs, continuing studies courses to upgrade job skills, and personal enrichment seminars. In the 1994-95 academic year, Palm Beach Community College served nearly 54,000 students in all areas of instruction.

Following Dr. Eissey's retirement in November 1996, PBCC Vice President of Administration and Business Affairs Dr. G. Tony Tate, who had served the College for 39 years, assumed the presidency on an interim basis. Dr. Dennis P. Gallon was named the College's fourth president in July 1997.

TODAY

Currently, the College is in the process of implementing its five-year strategic plan. Implementation began in Fall 1999, and the entire plan will be put into place gradually through 2004. Also, PBCC is undergoing a self-study for the purpose of reaccreditation as well as evaluation and improvement of all areas of the College. PBCC expects its accreditation to be reaffirmed by the Southern Association of Colleges and Schools in 2001.

Under Dr. Gallon's leadership, the College has continued the expansion of its comprehensive mission by adding an array of workforce training programs to meet the changing needs of business and industry. Other areas of focus include designing and implementing a contemporary technology infrastructure to improve the quality of instruction and college operations, expanding distance-learning opportunities through television and the internet, and creating partnerships with education, business and other institutions and agencies in the community.

The information for this history of Palm Beach Community College was gathered from many sources, including past college catalogs, the 1980 PBJC Self-Study, the 1993 President's Report, the Walk of Fame dedication program and various archived records.

Vision, Mission and Beliefs

In January 1999, a 49-member team of faculty, staff, business leaders, community representatives and students met to develop the fundamental beliefs of Palm Beach Community College. From those sessions came our shared vision, mission and beliefs that helped guide us in the formation of our five-year strategic plan.

Our Vision

We envision a College that is a diverse community of active learners, where academic excellence is recognized, and where achievement occurs in an environment without boundaries, through a responsive collaborative effort to the ongoing renaissance and enrichment of its community.

Our Mission

Preamble

> *"Palm Beach Community College, a richly diverse comprehensive two-year institution with a history of achievement since 1933, is dedicated to serving the educational needs of the residents of Palm Beach County by providing the associate in arts, associate in science and associate in applied science degrees, professional certificates, workforce development and lifelong learning."*

The mission of Palm Beach Community College is to provide an accessible and affordable education through a dedicated and knowledgeable faculty and staff, a responsive curriculum and a strong community partnership, which together will enable students to think critically, demonstrate leadership, develop ethical standards and compete effectively in the global workplace.

Amended and approved by the District Board of Trustees, April 11, 2000

Our Beliefs

1. Students are our first priority.
2. Appropriate resources for faculty staff training and development must be provided to enhance learning.
3. The College must be responsive to the needs of its community.
4. Lifelong learning enhances the quality of life.
5. Strong partnerships enhance the development of the College and the community.
6. Each student should leave with skills necessary to achieve individual goals.
7. Everyone should have access to affordable, quality education.
8. The College must prepare students for future leadership roles.
9. Participation of all members of the College community will enhance the decision-making process.
10. Students must be prepared for an ever-changing global environment.
11. Providing a quality education is worth the cost and effort.
12. Instruction should meet the varying learning styles of students.
13. We must hold an uncompromising commitment to excellence.
14. Equity and equality of opportunity are essential.
15. A safe, supportive and secure college climate is essential.
16. Diversity should be embraced as a reflection of society and enhances the educational process.
17. The College should prepare students to be responsible and productive members of the community.
18. Knowledge of options is essential.
19. All of our students are capable of experiencing success.
20. Increased student interaction with the College and the community enriches learning.

Campus Locations

Courses are offered at Palm Beach Community College locations in Lake Worth, Palm Beach Gardens, Belle Glade and Boca Raton and through satellite centers at Royal Palm Beach, Wellington Community High School and the de Hoernle Historical Building in West Palm Beach. Each location offers general education courses; however, certain vocational programs may not be available at all locations.

Lake Worth

The Lake Worth campus, located on Congress Avenue, is PBCC's largest and longest-established campus. It is bordered by Lake Osborne and John Prince Park, and has accommodated the educational needs of the community for over 40 years.

The 114-acre campus offers an extensive selection of majors leading to an associate in arts degree for those planning to transfer to universities, and associate in science degrees and vocational certificates for those pursuing technical fields. In addition, the campus offers a wide variety of non-credit classes through the Career and Technical Education department. Among the many programs available at the Lake Worth campus, the nursing, paramedic, dental health, hospitality/food service, early childhood, criminal justice, plumbing and electrical apprenticeship, drafting, interior design, graphic design and real estate programs have attracted many students from the community as well as the nation.

The spacious Watson B. Duncan III Theatre serves as the campus' performing arts instructional facility and hosts a variety of cultural and entertainment events for the public.

Count de Hoernle Student Village, a student apartment housing community that can accommodate over 600 individuals, is available to students interested in walking or biking to and from the Lake Worth campus.

Palm Beach Gardens

The Palm Beach Gardens campus opened in 1982 as a permanent, full-time facility offering associate in arts and associate in science degrees and certificate programs. The associate in science degree, for those planning to enter the workforce, is available in computer information systems technology; film, television and video technology; legal assisting; environmental horticulture; radiography; respiratory care; business; and medical imaging.

A 750-seat Edward M. Eissey Theatre presents educational and cultural programs for the benefit of the College and the public. The facility is also a training center for the campus theatre program. The campus has a Career Resource Center, a Center for Personalized Instruction, state-of-the-art computer classrooms and laboratories, a 250-seat Alfred W. Meldon Lecture Hall and an art gallery.

Belle Glade

Nestled on the banks of a small lake, PBCC in Belle Glade opened in 1972. The permanent facility was built in 1977 and occupied in January 1978.

The Belle Glade location offers comprehensive courses for college transfer to four-year institutions as well as vocational, technical and continuing education courses.

In addition, the 470-seat Dolly Hand Cultural Arts Center at Belle Glade was completed in 1982, and the lobby was expanded in 1996. The theater offers a variety of cultural and entertainment performances, and is available for rental by individuals and organizations for lectures and meetings.

Boca Raton

Since 1971, Palm Beach Community College has been serving the greater south Palm Beach County area from its campus in Boca Raton, conveniently located adjacent to Florida Atlantic University. Many students take advantage of the unique partnership between the two institutions to earn a baccalaureate degree at one location.

PBCC's Boca Raton campus provides its students with state-of-the-art classrooms and laboratory facilities and full-use privileges at the FAU library. PBCC in Boca Raton offers classes for those seeking a college degree as well as those interested in job training, upgrading of skills and personal enrichment workshops.

Off-campus Locations

In addition to classes at four full-service locations in Palm Beach County, Palm Beach Community College also conducts classes at many off-campus facilities.

- The de Hoernle Historical Building in downtown West Palm Beach.
- Wellington High School and Royal Palm Beach High School, both of which host many evening classes for PBCC students.
- Several other local public high schools, at which dual-enrollment classes for high school students are taught.
- Several off-campus athletic facilities, such as fitness centers, tennis courts, golf courses, bowling alleys and parks host physical education and other health classes.
- Some PBCC vocational programs offer classes at local hospitals, police and fire stations, and other vocational and job training centers.

Our Service Area

Palm Beach Community College's service district encompasses all of Palm Beach County, Florida. Palm Beach County is the second largest county in Florida in terms of land area, with a total landmass of 1,974 square miles. According to 1999 population estimates, the County's population currently ranks third in the state, with 1,042,196 people.

In addition, the population of Palm Beach County grew rapidly over the last half of the 20th century. From a population of slightly more than 100,000 just 50 years ago, Palm Beach County enters the 21st century as home to more than one million people.

And our area will continue to grow. In the next 30 years, Palm Beach County is expected to net another 600,000 people, bringing the expected population of the area to over 1.6 million by 2030.

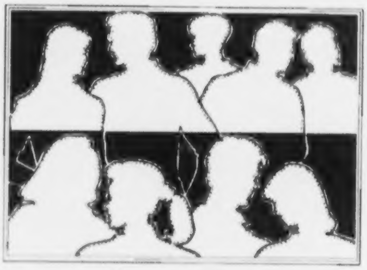
pbcc

Headcount Enrollment



Opening Fall Headcount

Opening Fall 1999 credit headcount decreased for the first time in three years. PBCC opened the Fall 1999 term with 16,457 credit and prep students, about half of whom attended classes at the Lake Worth campus. Please note that prior years' headcounts did not include prep-only students, as they do in 1999. (For more information, please see "Headcount Enrollment" in ***What's New in Panorama 2000*** (p. 2)).

The Districtwide opening headcount has remained at fairly steady levels for nearly a decade. Enrollment increases at the Belle Glade and Boca Raton locations have been the most noticeable in recent years.

(Please see Appendix 'B' for tabular data on 1999 opening Fall enrollment.)

* Credit students only.

End-of-term Fall Headcount

Credit and prep headcount at the end of the Fall 1999 term totaled 17,085 – a decrease from Fall 1998. For the most part, increases and decreases in end-of-term Fall enrollment at both the District and campus level have been similar to changes in opening Fall enrollment.

(Please see Appendix 'C' for tabular data on 1999 end-of-term Fall enrollment.)

Opening Spring Headcount

Credit and prep enrollment is traditionally lower in the Spring term than in the Fall. Opening Spring 2000 credit/prep headcount decreased from Spring 1999 to 15,403.

As with opening Fall headcount, increases at Belle Glade and Boca Raton have been most noticeable in recent years. Please be aware, however, that prior years' headcounts did not include prep-only students, as they do in 2000.

(Please see Appendix 'D' for tabular data on 2000 opening Spring enrollment.)

Opening Summer Headcount

Summers at PBCC, like most other colleges, tend to be quieter than the Fall and Spring terms. The Districtwide Summer 1999 headcount at the end of the Summer 'A' drop-and-add period was 7,699. However, please be aware that this figure includes some Summer 'B' enrollment. (For more information, please see "Summer Enrollment" in ***What's New in Panorama 2000*** (p. 3)).

Net Change in Headcount During Term

Enrollment in credit and prep classes is continuous throughout the various terms as a result of registration in mini-terms, such as the eight- and twelve-week sessions in the Fall and Spring terms. Depending on course offerings and demand, credit/prep enrollment can increase greatly or hardly at all during a term.

In the Fall 1999 term, credit/prep enrollment increased by 628 students from the beginning to the end of the term. Lake Worth had the highest net increase in terms of number of students, followed closely by Palm Beach Gardens. An additional 622 students registered for classes between the opening and the end of the Spring 2000 term, while Summer headcount increased by more than 2,000 students from the end of Summer 'A' Drop/Add to the end of the Summer 'B' term.

In percentage terms, credit and prep headcount netted a 3.8% increase from the beginning to the end of the Fall 1999 term. The increase was noticed the most at the Palm Beach Gardens campus, which enjoyed a 6.6% jump.

Spring 2000 headcount increased by 4.0% from the beginning of the term to the end, while Summer 1999 headcount increased about 26% from beginning of the 'A' term to end of the 'B' term.

Weekend Headcount

In the Fall 1999 and Spring 2000 terms, more than 1,700 credit and non-credit students took PBCC courses on weekends. Lake Worth had the most weekend enrollment, as nearly 1,200 students enrolled for weekend classes in both of the major terms in 1999-2000.

(Please see Appendix 'G' for tabular data on 1999-2000 weekend enrollment.)

Graph 23

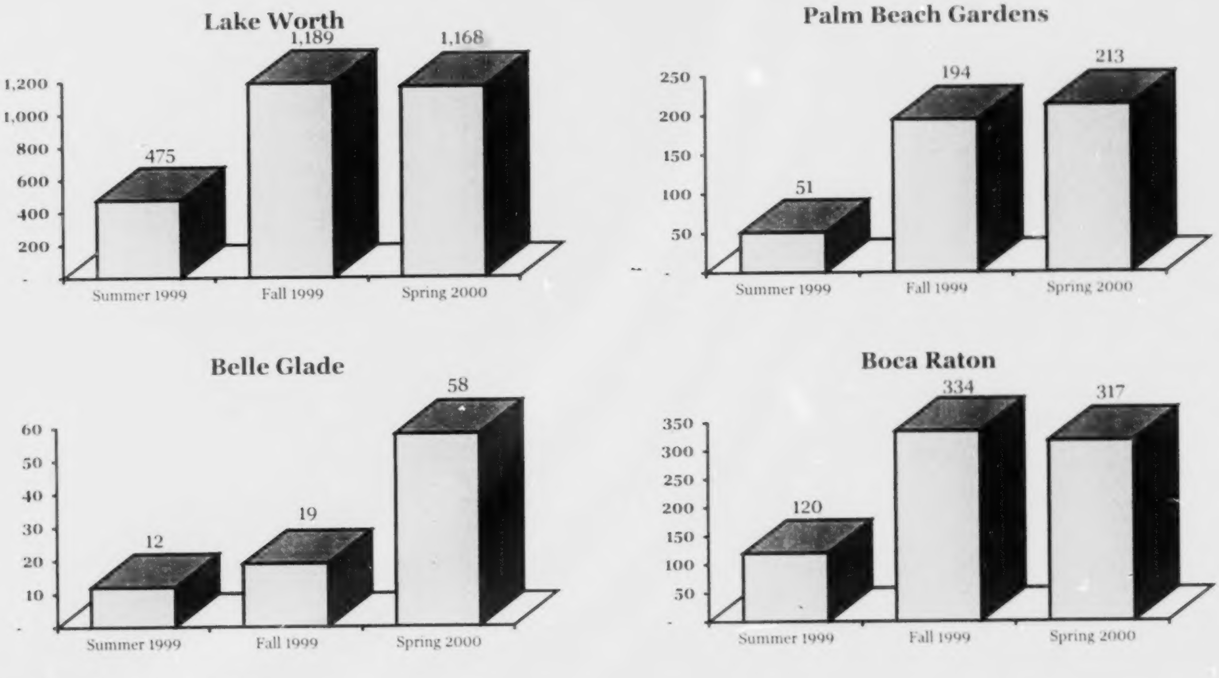
Graph 24
End-of-term Weekend Headcount by Campus, 1999-2000
Combined Credit, Prep and Non-Credit



Source: Student Database, ST-CLASS-A

More than half of PBCC's weekend students in the Fall 1999 and Spring 2000 terms were enrolled in weekend credit and/or prep courses. In total, more than 1,100 weekend credit and prep students were counted in the Fall 1999 term, while there were more than 900 weekend students enrolled in Spring. Roughly 60% of those students took their weekend classes at the Lake Worth campus.

(Please see Appendix 'G' for tabular data on 1999-2000 weekend enrollment.)

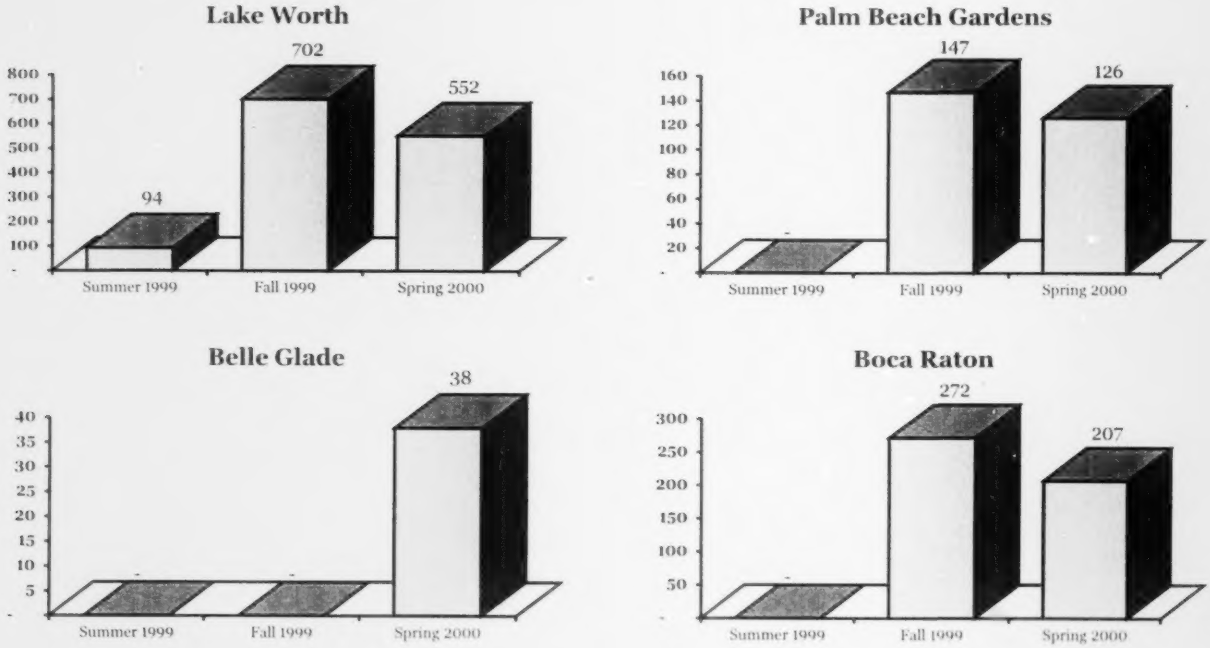
End-of-term Weekend Credit/Prep Headcount by Campus, 1999-2000



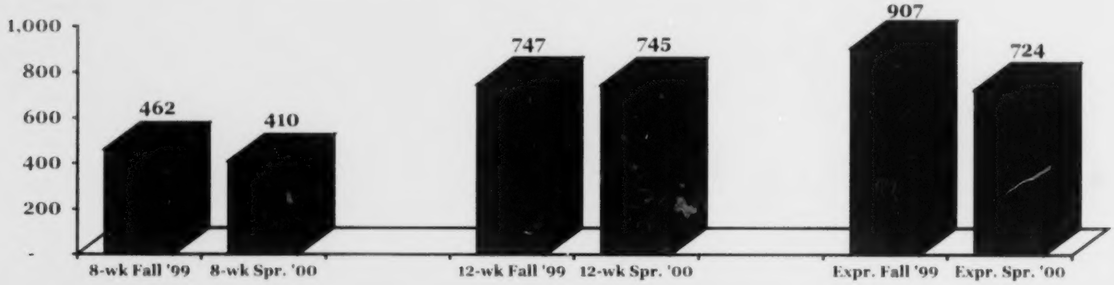
Source: Student Database, ST-CLASS-A

Eight-week, Twelve-week and Express Term Headcount

Of the three major mini-terms, Express term shows the most enrollment. More than 900 students took Express term courses in the Fall 1999 term, while more than 700 took classes in that term in the Spring. The 12-week term had enrollments of almost 750 in both Fall and Spring, while the first 8-week term enrolled more than 400 students in Fall and Spring.

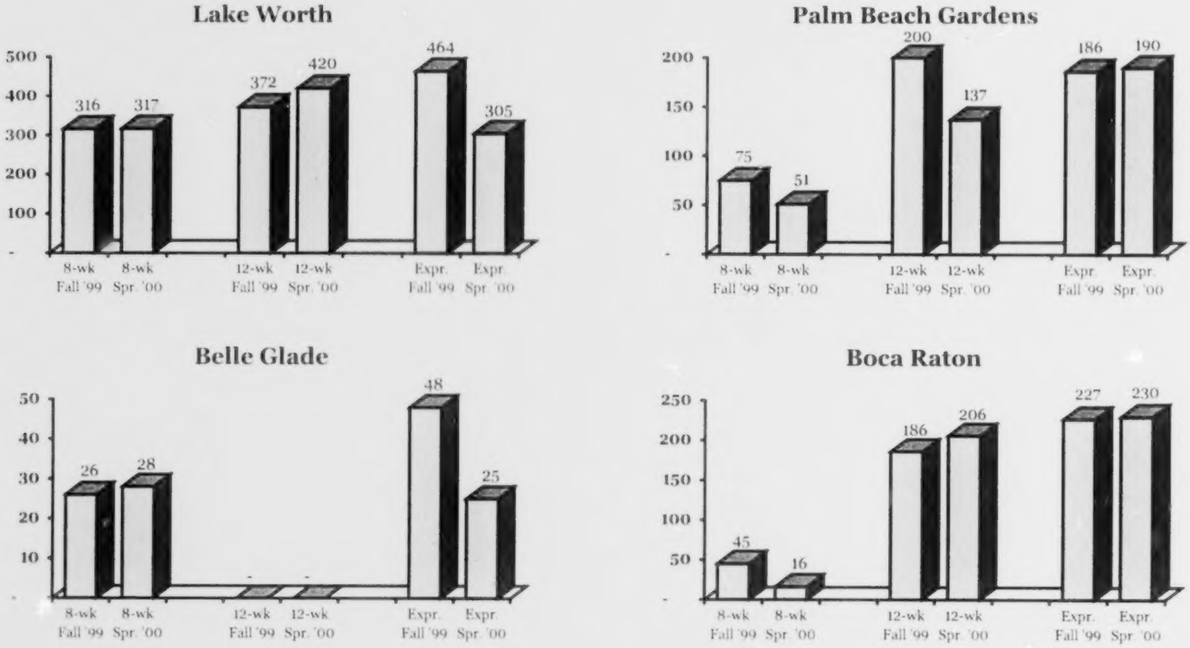
(Please see Appendix 'I' for tabular data on 1999-2000 8-week term, 12-week term and Express term enrollment.)

Graph 27
Districtwide 8-week, 12-week and Express Term Credit/Prep Headcount, 1999-2000



Source: Student Database, ST-CLASS-A

Graph 28
8-week, 12-week and Express Term Credit/Prep Headcount by Campus, 1999-2000



Source: Student Database, ST-CLASS-A

Postsecondary Adult Vocational/Apprenticeship Headcount

Postsecondary Adult Vocational and Apprenticeship headcount was strong across all three terms. Nearly 1,900 students were enrolled in PSAV courses in both the Fall 1999 and Spring 2000 terms. In addition, there were more than 1,300 students enrolled in the Summer 1999 term. Most of the PSAV enrollment is at the Lake Worth campus, which is currently credited with all Apprenticeship enrollment districtwide.

(Please see Appendix 'H' for tabular data on 1999-2000 PSAV/Apprenticeship enrollment.)

Graph 29
Districtwide PSAV/Apprenticeship Headcount, 1999-2000

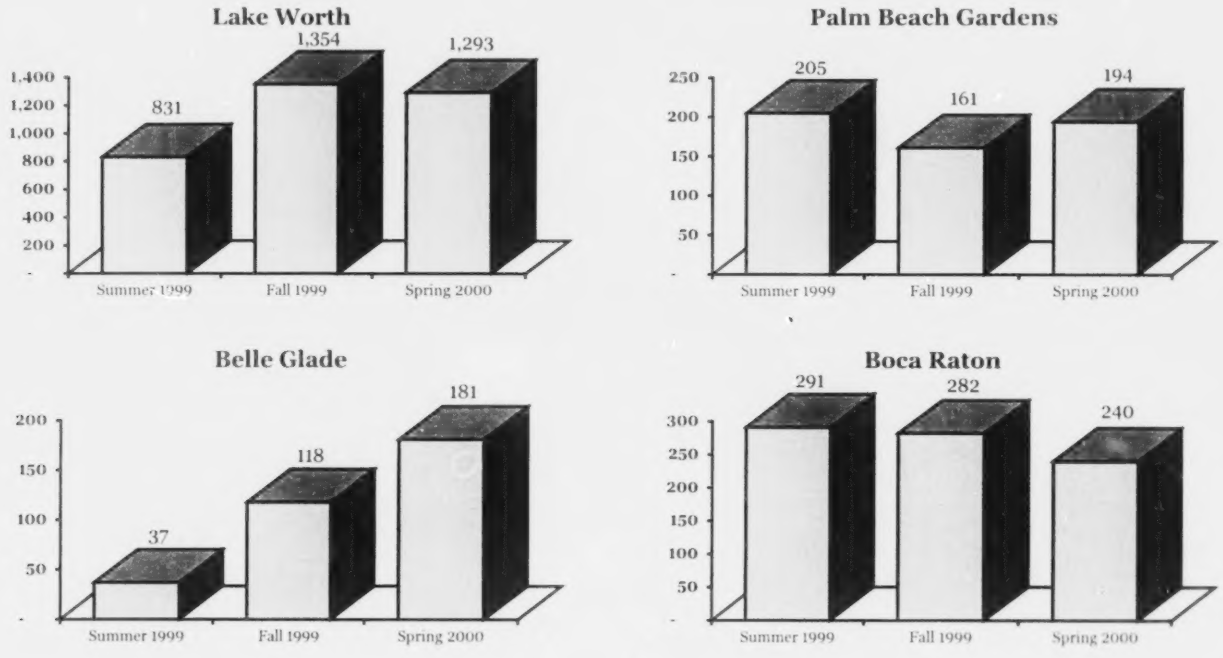
PSAV/Apprenticeship Headcount by Campus, 1999-2000



Source: Student Database, ST-CLASS-A

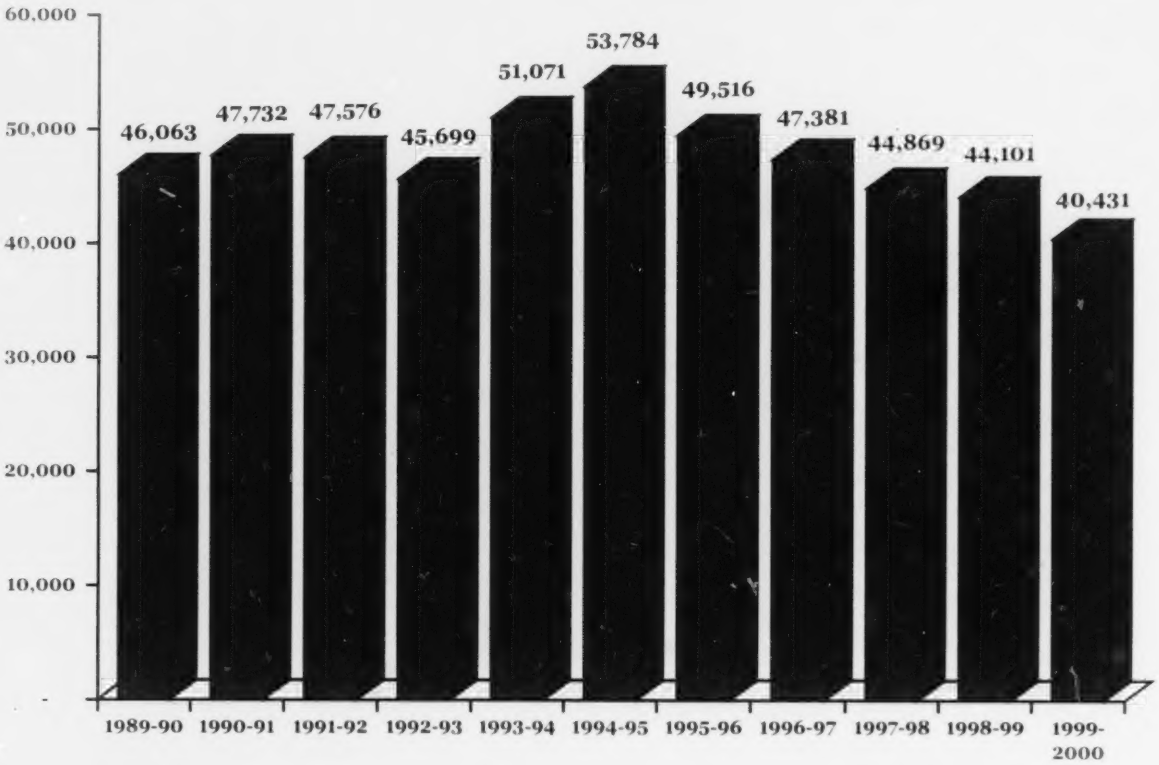
Total Annual Unduplicated Headcount

Palm Beach Community College served a total of 40,431 students in both credit and non-credit programs during the 1999-2000 reporting year – down more than 8% from 1998-99.

While total annual headcount has been in decline in recent years, mainly due to a fall in non-credit students, overall enrollment is expected to increase with the transfer of adult education programs from the School Board of Palm Beach County over the next several years.

(Please see Appendix 'F' for tabular data on annual unduplicated headcount.)

Graph 31
Annual Unduplicated Headcount, 1989-90 to 1999-2000



Source: AA1-A series, XSR053J1

Annual unduplicated credit/prep headcount fell by more than 5% to 25,798 in the 1999-2000 reporting year. The number of students registered in non-credit classes only declined to 14,633 – down almost 13% from the previous year and 44% from its peak level reached in the 1994-95 reporting year.

(Please see Appendix 'F' for tabular data on annual unduplicated credit and non-credit headcount.)

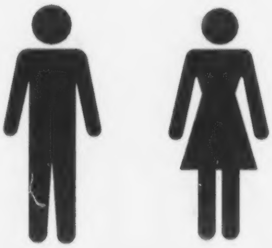
pbcc

Demographics & Characteristics

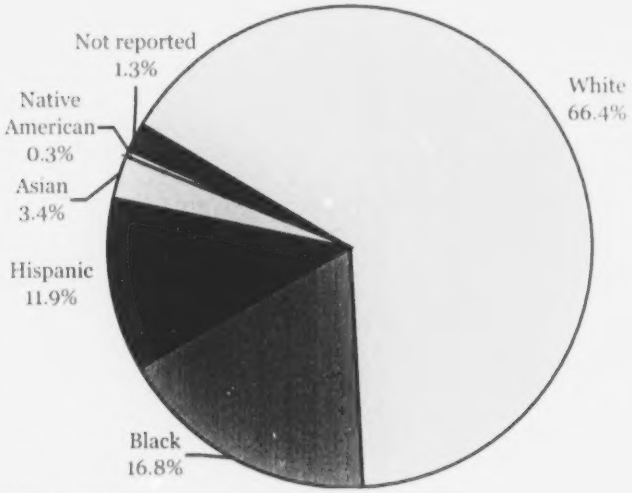


Race & Ethnicity

The student makeup of Palm Beach Community College is racially and ethnically diverse. About one-third of our students are members of minority groups. The Belle Glade campus is the most ethnically varied campus, with about 40% belonging to minority groups.

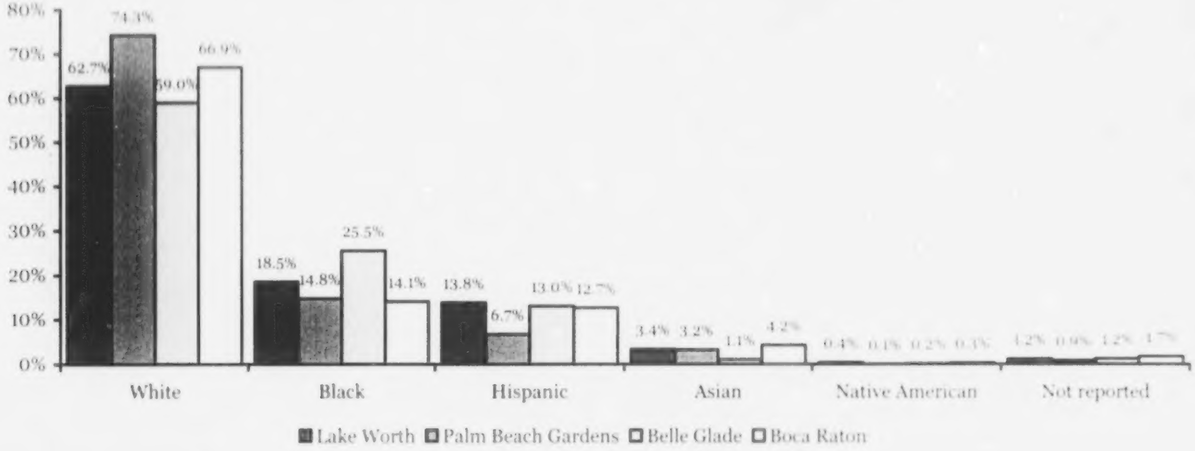
(Please see Appendix 'B' for tabular data on 1999 opening Fall race/ethnicity distribution.)

Graph 34
Opening Fall 1999 Race/Ethnicity Distribution



Source: Student Database

Graph 35
Opening Fall 1999 Race/Ethnicity Distribution by Campus



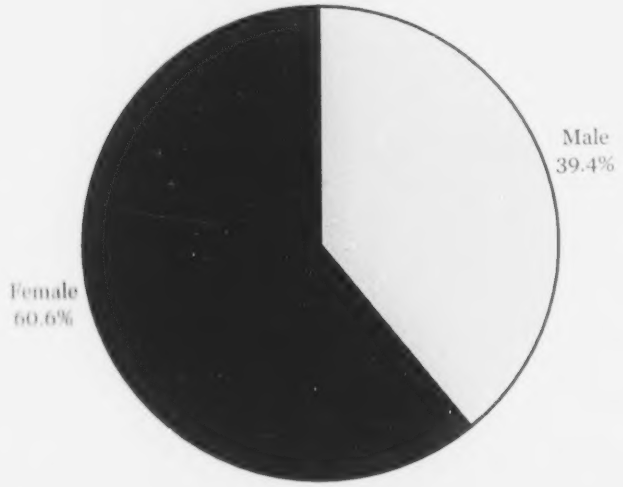
Source: Student Database

Gender

Districtwide, more than 60% of PBCC credit students are female. Campus figures range from 57% female at Boca Raton to 70% female at Belle Glade.

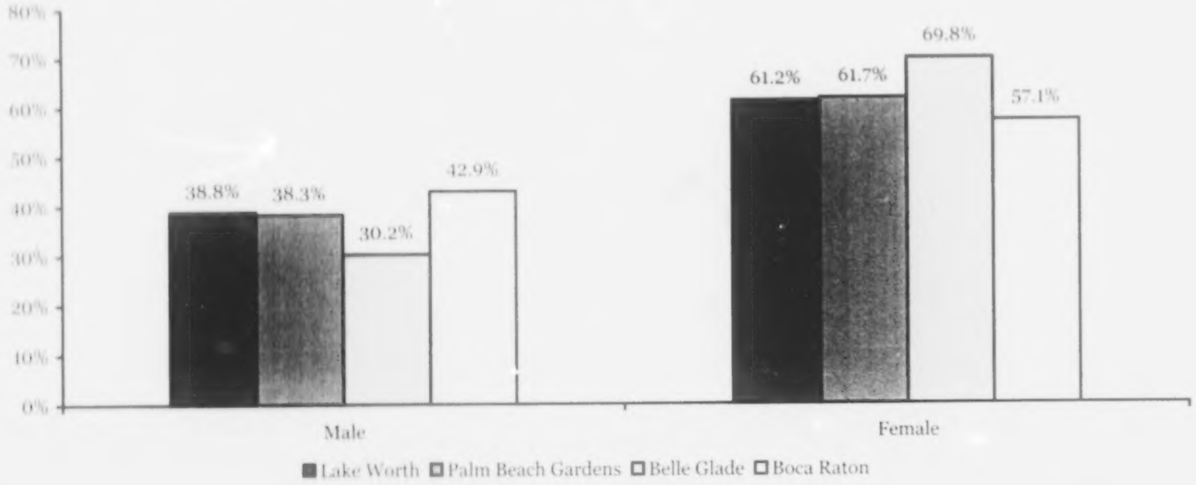
(Please see Appendix 'B' for tabular data on 1999 opening Fall gender distribution.)

Graph 36
Opening Fall 1999 Gender Distribution



Source: Student Database

Graph 37
Opening Fall 1999 Gender Distribution by Campus



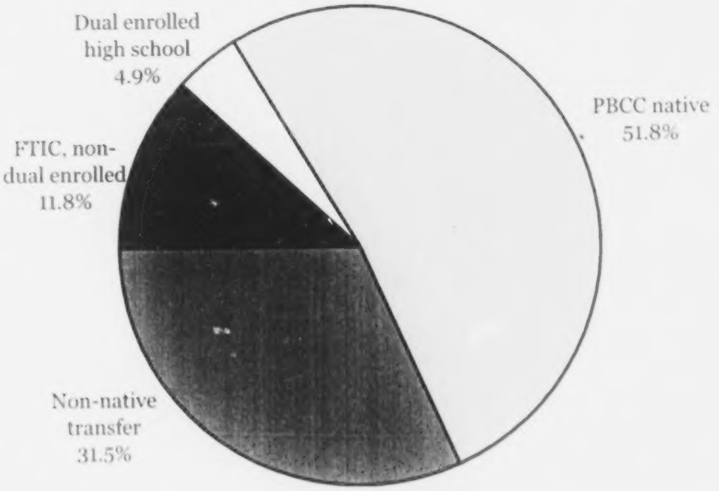
Source: Student Database

Classification

More than half of PBCC's credit and prep students are native to this college, meaning they have not attended any other postsecondary institutions. Nearly a third of our students have transferred credit to PBCC from another institution. For 12% of our students, Fall 1999 was their first time in college. Another 5% are students who are dual-enrolled at both PBCC and their high schools.

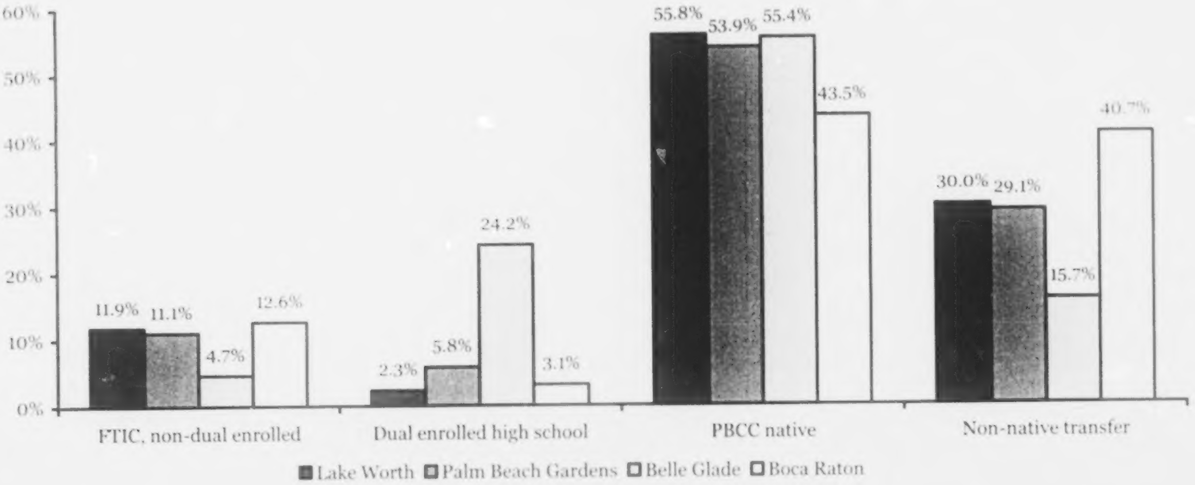
(Please see Appendix 'B' for tabular data on 1999 opening Fall classification distribution.)

Graph 38
Opening Fall 1999 Classification Distribution



Source: Student Database

Graph 39
Opening Fall 1999 Classification Distribution by Campus



Source: Student Database

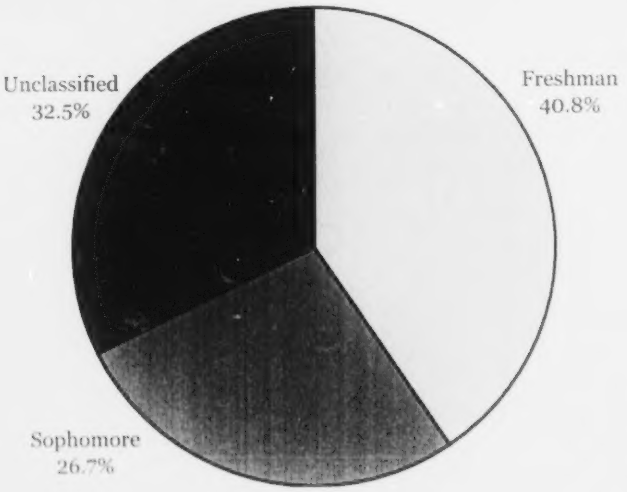
42

Class Level

At the beginning of the Fall 1999 term, 41% of credit and prep students were classified as freshmen, while 27% were sophomores. The remainder were not classified as either. Boca Raton has the highest freshman enrollment, while Lake Worth has the highest proportion of sophomores. Nearly half the students at Belle Glade are unclassified due to the high proportion of dual-enrolled high school students.

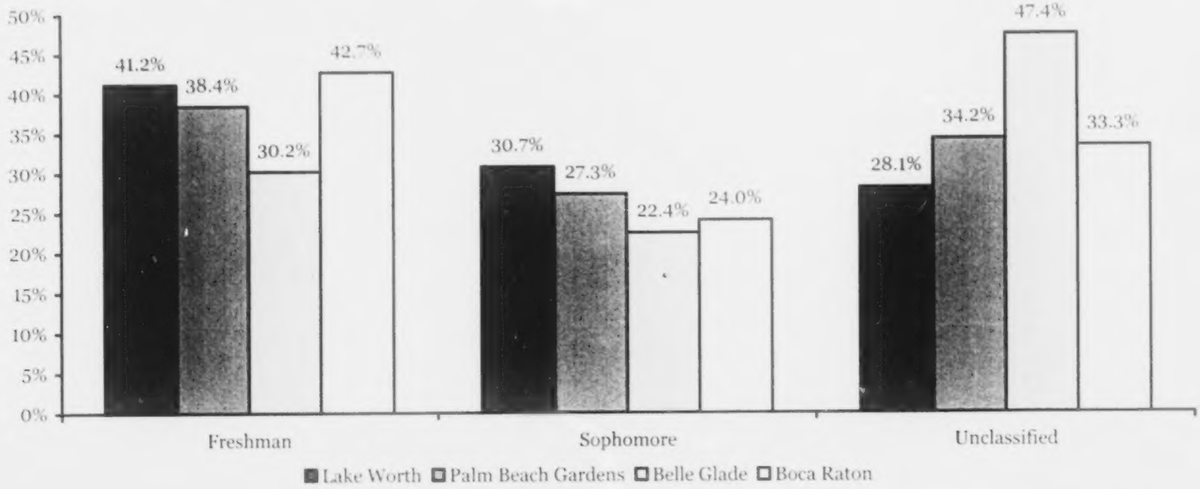
(Please see Appendix 'B' for tabular data on 1999 opening Fall class level distribution.)

Graph 40
Opening Fall 1999 Class Level Distribution



Source: Student database

Graph 41
Opening Fall 1999 Class Level Distribution by Campus



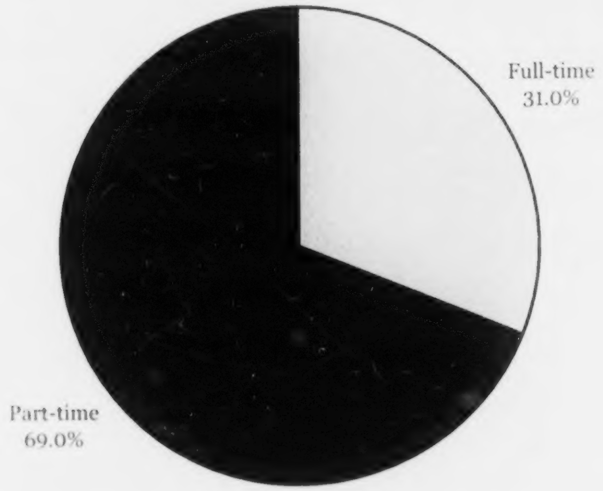
Source: Student database

Full-time/Part-time Status

Almost one-third of our 1999 opening Fall term students were classified as full-time, meaning they had enrolled in at least 12 semester hours of classes. Campus figures for full-time students ranged from 26% at Belle Glade to 34% at Lake Worth.

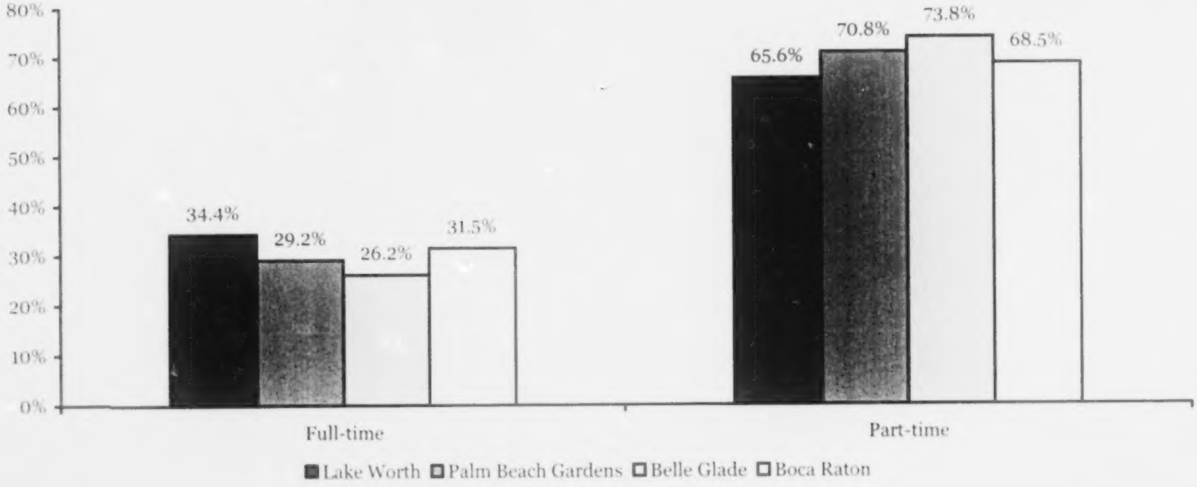
(Please see Appendix 'B' for tabular data on 1999 opening Fall full-time/part-time distribution.)

Graph 42
Opening Fall 1999 Full-time/Part-time Distribution



Source: Student Database

Graph 43
Opening Fall 1999 Full-time/Part-time Distribution by Campus



Source: Student Database

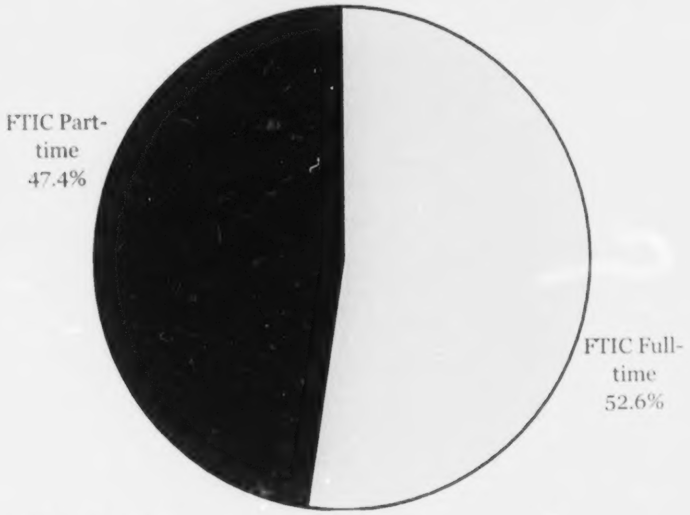
44

Full-time/Part-time Status of First-time-in-college Students

The proportion of full-time to part-time students is nearly even when only non-dual enrolled first-time-in-college students are analyzed. Districtwide, more than half of first-time-in-college students were classified as full-time, compared to just 31% for the credit-enrolled student body as a whole. At the campus level, the percentage of full-time first-time-in-college students ranged from 37% at Belle Glade to 56% at Lake Worth.

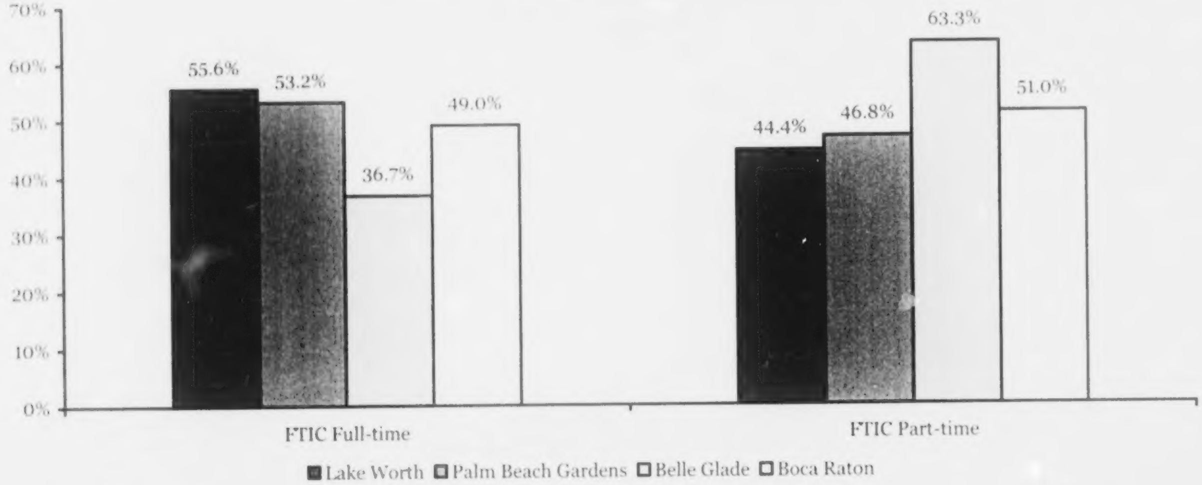
(Please see Appendix 'B' for tabular data on 1999 opening Fall FTIC full-time/part-time distribution.)

Graph 44
Opening Fall 1999 Full-time/Part-time Distribution of First-time-in-college Students



Source: Student Database

Graph 45
Opening Fall 1999 Full-time/Part-time Distribution of First-time-in-college Students by Campus



Source: Student Database

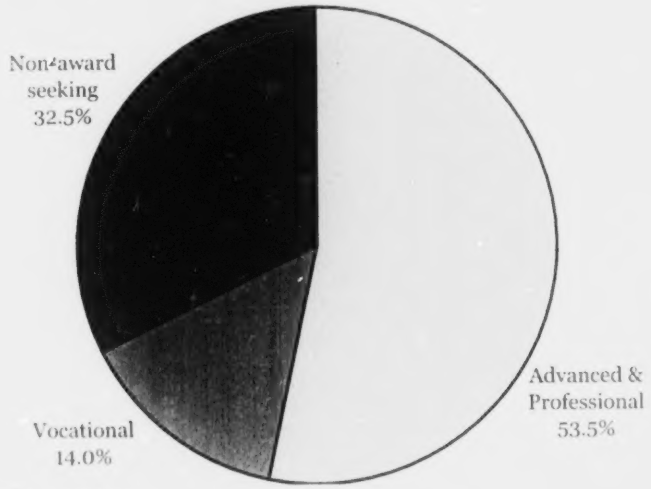
Program Type

About two-thirds of our credit/prep students were seeking a degree or certificate. Of those, 54% were seeking the associate in arts degree, while 14% were enrolled in associate in science or certificate programs.

Obviously, the distribution of program enrollment by campus varies according to what programs are offered at each campus. Boca Raton, which currently hosts few vocational programs, has a much higher proportion of associate in arts students than any other campus. Lake Worth, which hosts many credit vocational programs, including both nursing and dental hygiene, has a higher rate of vocational enrollment than the other campuses. Belle Glade, which gets many of its students from high school dual-enrollment, has a high proportion of non-degree seeking students.

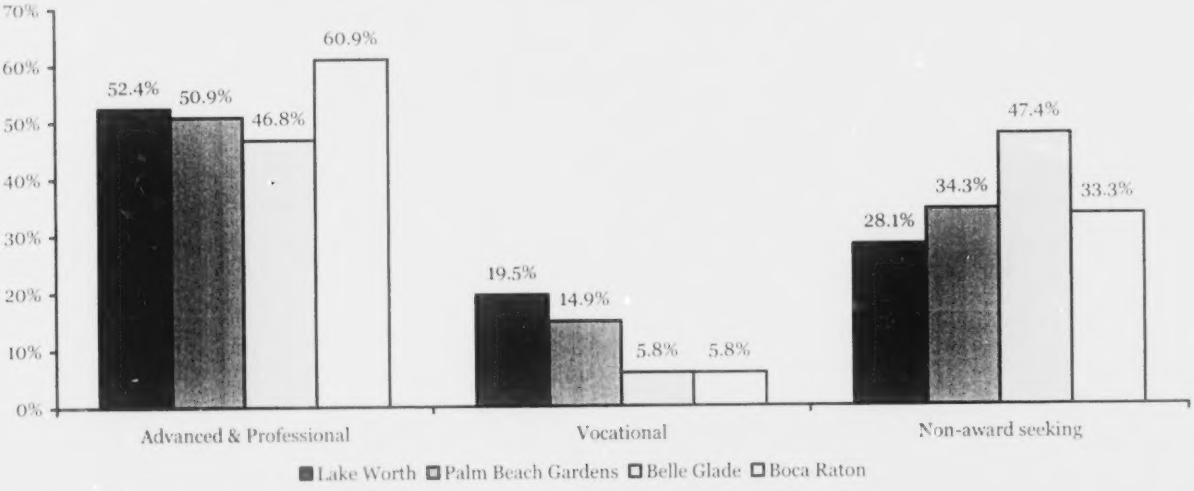
(Please see Appendix 'B' for tabular data on 1999 opening Fall program type distribution.)

Graph 46
Opening Fall 1999 Program Type Distribution



Source: Student Database

Graph 47
Opening Fall 1999 Program Type Distribution by Campus



Source: Student Database

Student Age

Credit & Prep Students

PBCC serves students of a wide range of ages. In Fall 1999, 55% of credit and prep students were in the traditional college age range of 18-24. However, 26% of our students are older than 30.

Student age varies greatly by campus. At Boca Raton, two-thirds of students are 18-24, compared to only 43% at Belle Glade. It should be noted, however, that more than one-quarter of Belle Glade students are under 18, largely due to the high proportion of dual-enrolled high school students.

(Please see Appendix 'B' for tabular data on 1999 opening Fall credit/prep age distribution.)

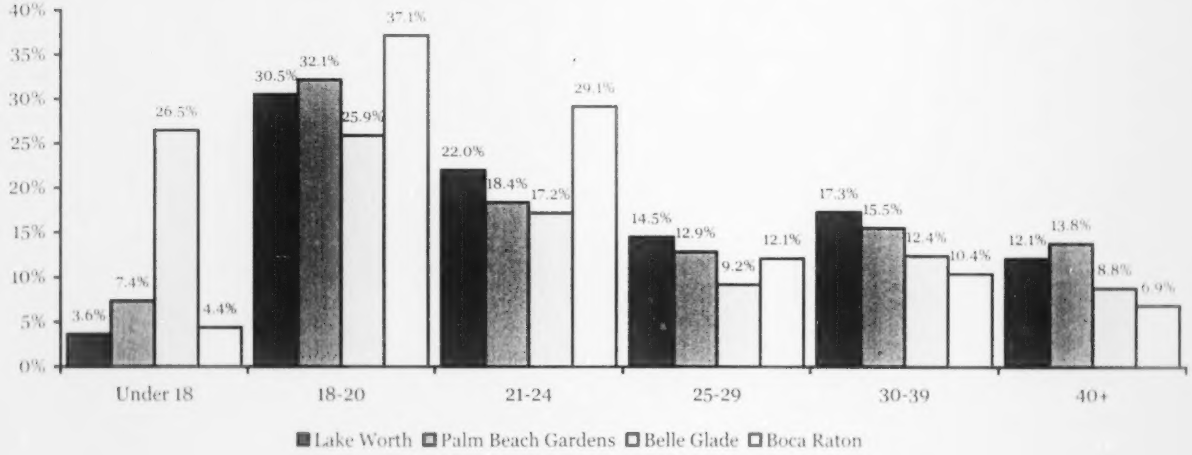
Source: Student database

Graph 49
Opening Fall 1999 Age Distribution by Campus, Credit/Prep Students



Source: Student database

All Students

When students in non-credit courses are included, student age tends to slant more toward older age ranges. About 40% of all students are age 30 or older, with nearly half of those older than 40. The average age of a PBCC student, credit or non-credit, for Fall 1999 was 30.

In total, almost half of Fall 1999 credit and non-credit students were age 24 or less.

Graph 50

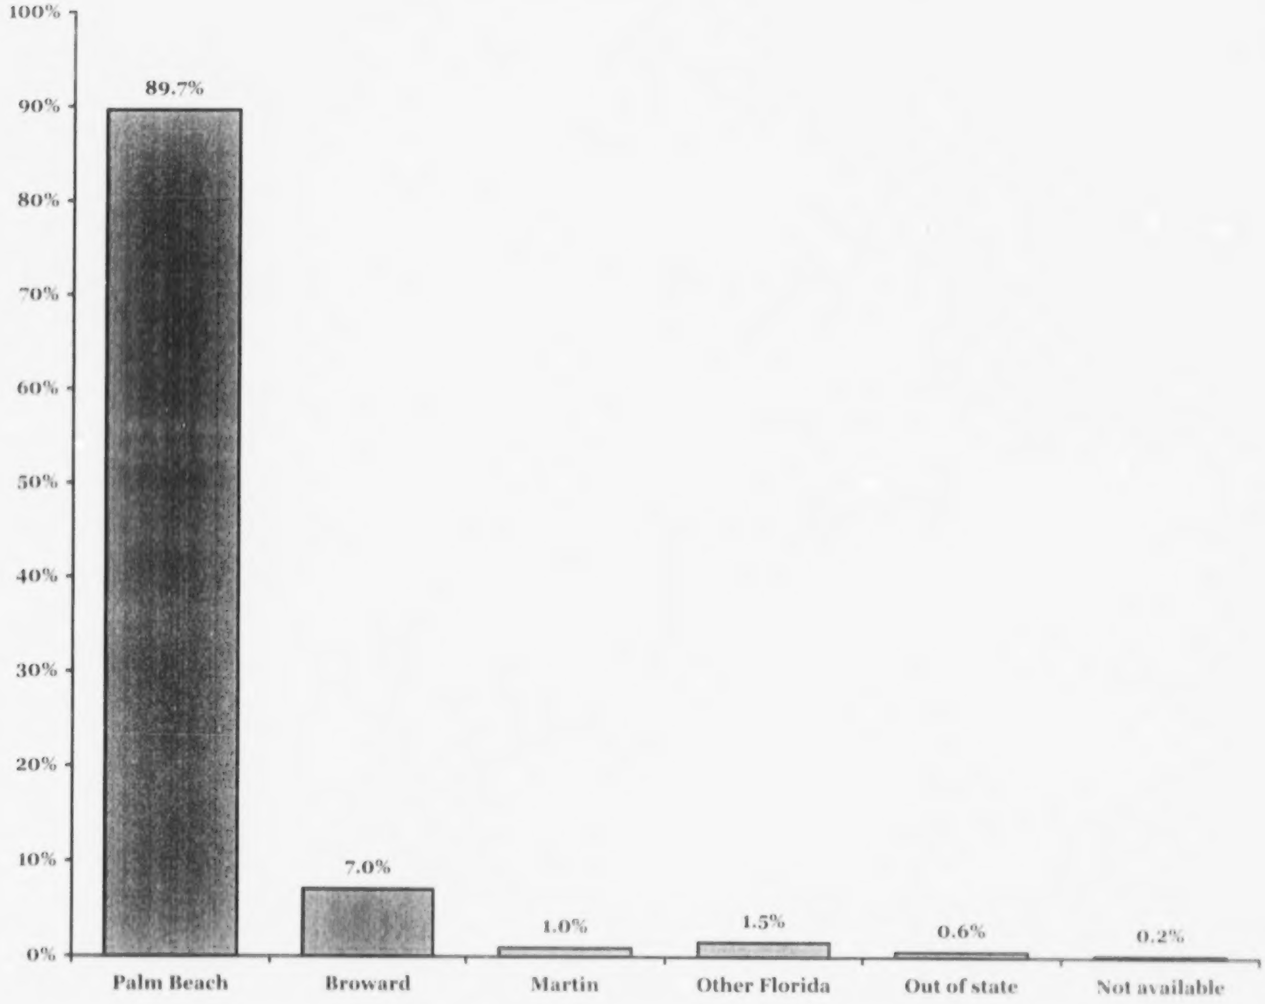
County of Residence

Credit Students

In Fall 1999, nine out of ten Palm Beach Community College credit and prep students were living in Palm Beach County, according to an analysis of ZIP codes. An additional 7% live in Broward County, which is adjacent to Palm Beach County on the south. All other Florida counties made up less than 3% of PBCC's credit/prep student body.

Out-of-state students comprised less than 1% of PBCC's credit students.

Graph 58
County of Residence, Credit/Prep Students, Fall 1999

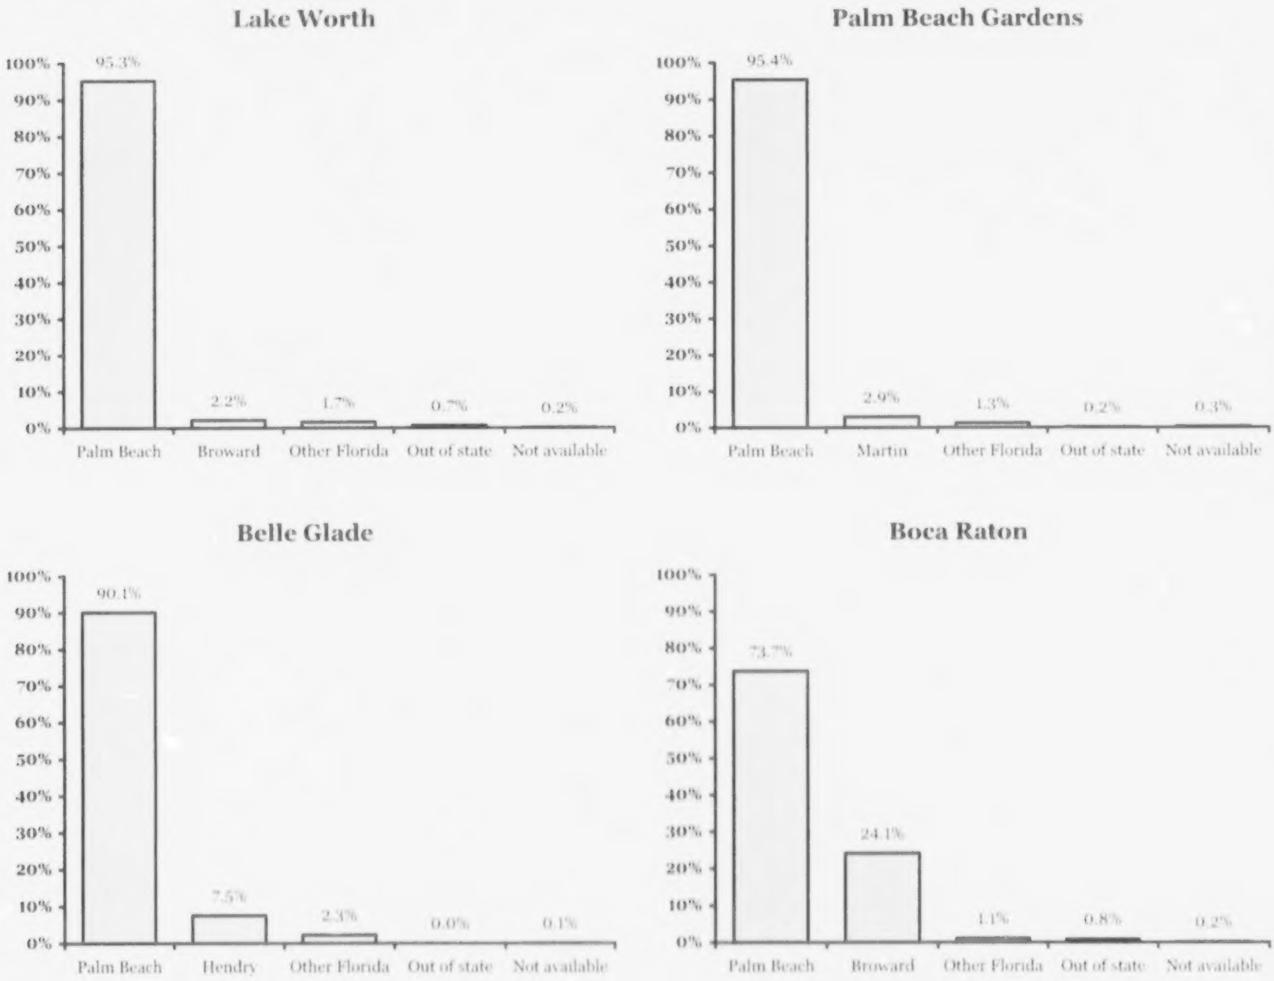


Source: XSR053J1

At both the Lake Worth and Palm Beach Gardens campuses, more than 95% of credit and prep students in Fall 1999 were living in Palm Beach County. Residents of Broward County make up about 2% of the credit/prep students at Lake Worth, while about 3% of Palm Beach Gardens credit/prep students come from neighboring Martin County to the north.

Boca Raton gets nearly a quarter of its credit students from Broward County, while at Belle Glade, nearly 8% of credit students live in Hendry County, adjacent to Palm Beach County on the west.

Graph 59
County of Residence, Credit/Prep Students by Campus, Fall 1999



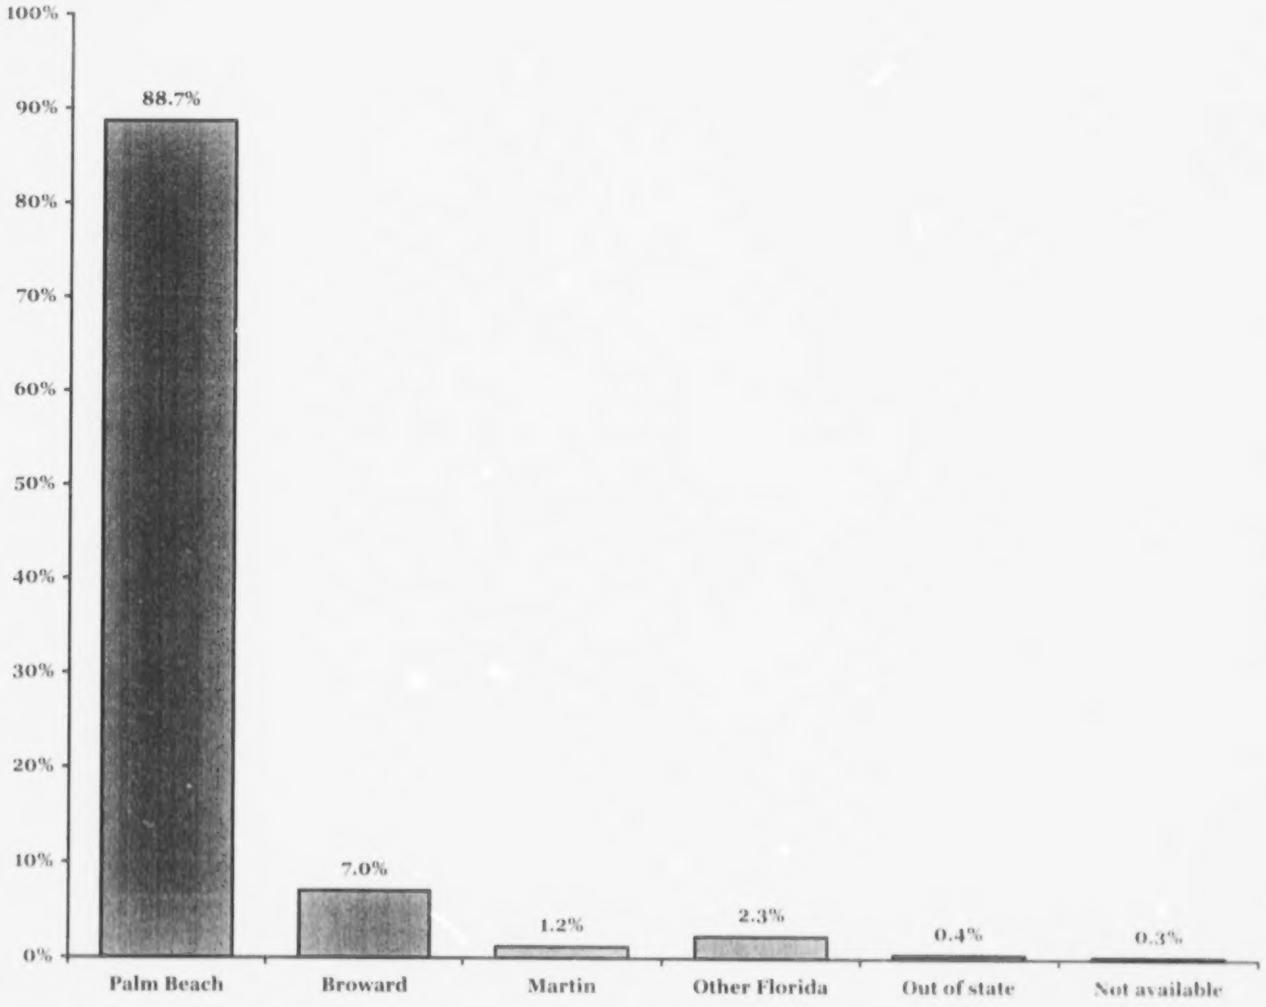
Source: XSR053J1

Combined Credit and Noncredit Students

For the Fall 1999 term, the proportion of in-county and out-of-county residents for all credit and non-credit classes was similar to the percentages for credit and prep students. About 89% of all students – credit and non-credit – were living in Palm Beach County. An additional 7% resided in Broward County.

Residents of other Florida counties and other states made up about 4% of the total student body.

Graph 60
County of Residence, Credit and Non-Credit Students, Fall 1999



Source: XSR053J1

In Fall 1999, Palm Beach County residents made up 95% of all credit and non-credit students at Palm Beach Gardens campus, and 93% at the Lake Worth campus.. Of the remainder, about 3% of Palm Beach Gardens students came from Martin County, while Lake Worth counted 3% Broward residents in with their total headcount.

At Boca Raton, about 23% of all students came north from Broward County, while at Belle Glade, 8% of the students came from Hendry County.

Graph 61
County of Residence, Credit and Non-Credit Students by Campus, Fall 1999

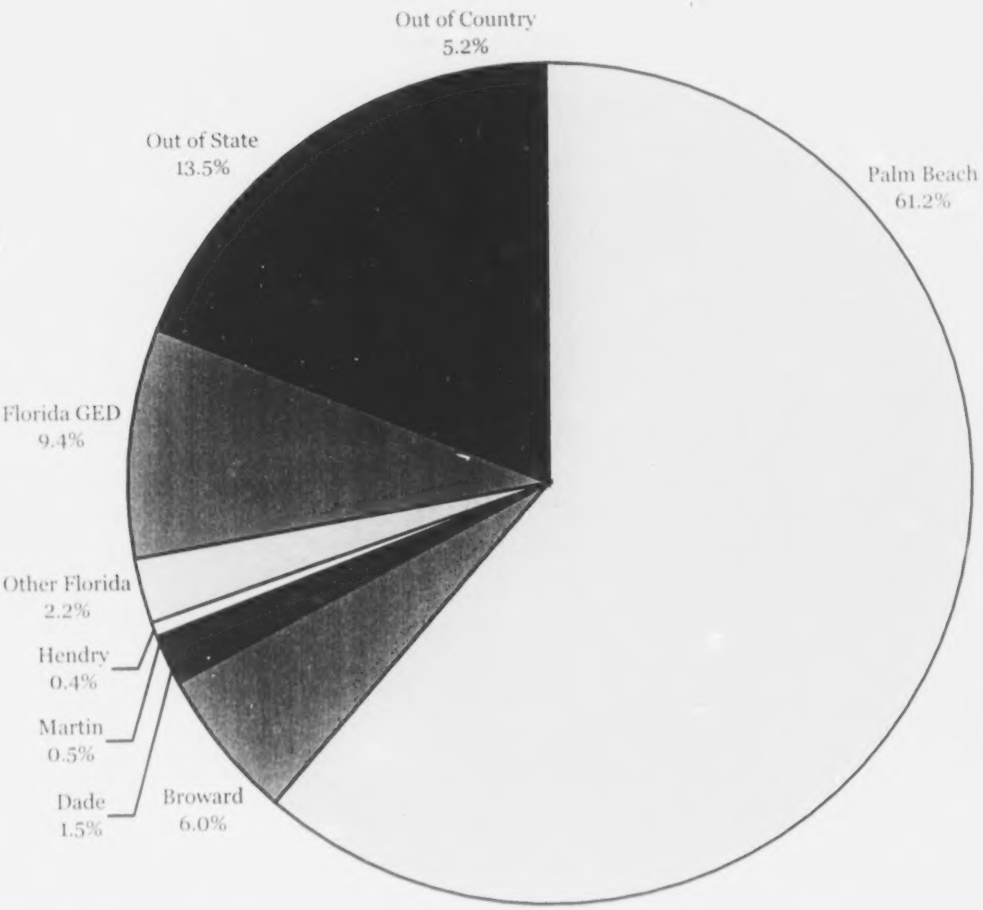
High School of Origin

Among Palm Beach Community College's Fall 1999 first-time-in-college students, 61% came from a high school in Palm Beach County. High schools in Broward County, adjacent to Palm Beach County on the south, accounted for 6% of PBCC's FTIC students. All other Florida counties made up almost 5% of the FTIC population at PBCC. Another 9% earned Florida GEDs.

About one in five FTIC students at PBCC came from a high school outside Florida.

(Please see Appendix 'J' for tabular data on high school of origin for FTIC students.)

Graph 62
High School County of First-time-in-college Students, Fall 1999



Source: Student Database, XSR053J1

At the campus level, the percentage of first-time-in-college students from Palm Beach County high schools is highest at the Palm Beach Gardens campus, where 73% of FTIC students were from county schools. Conversely, Palm Beach County schools accounted for only 47% of the FTIC students at Boca Raton.

Two campuses get a significant proportion of their students from other counties. Hendry County high schools supplied 14% of the FTIC students to the Belle Glade campus, while Broward County schools' proportion of FTIC students at Boca Raton was about 19% in Fall 1999.

(Please see Appendix 'J' for tabular data on high school of origin for FTIC students.)

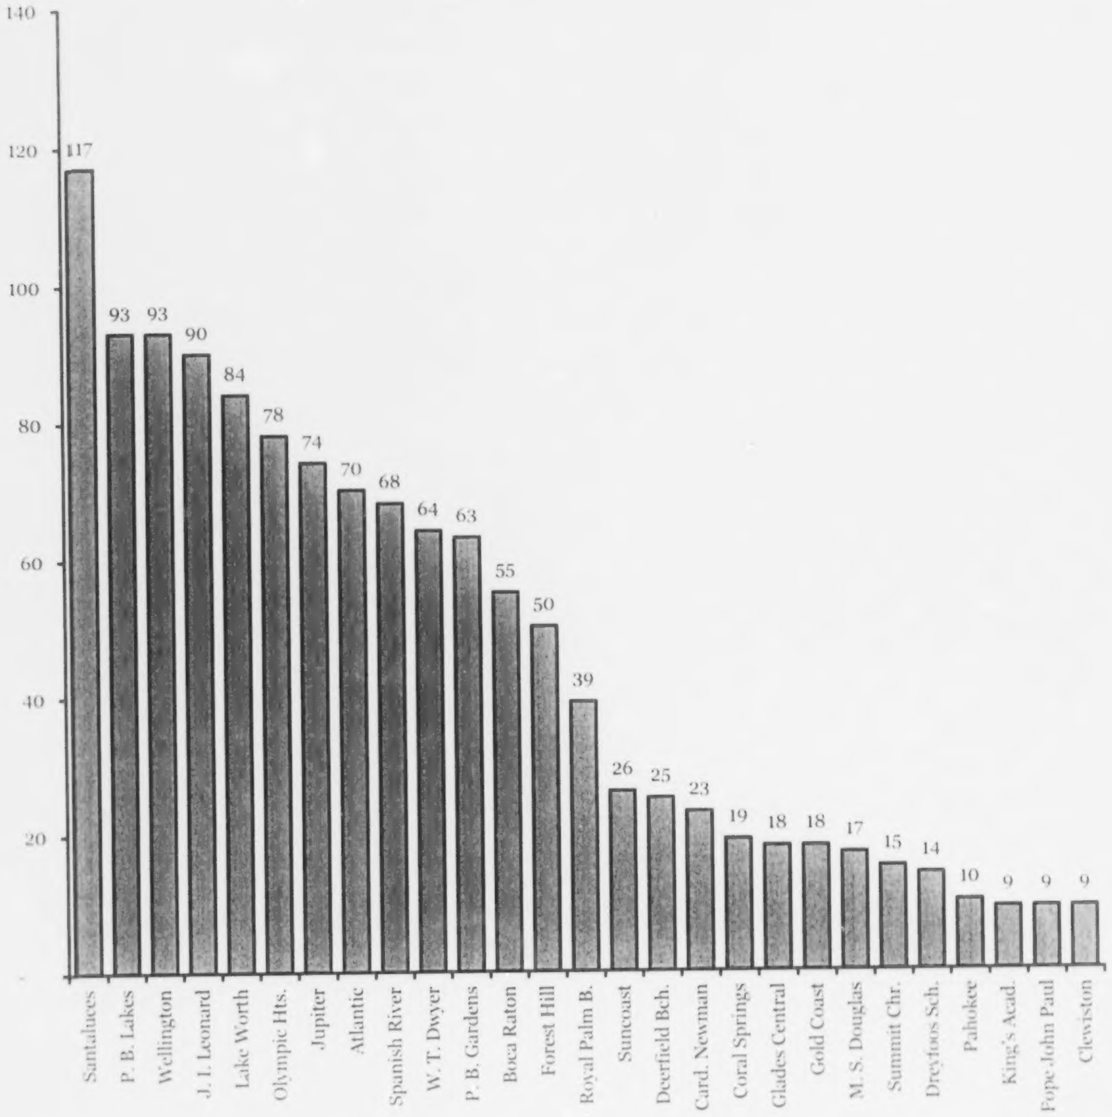
BEST COPY AVAILABLE

Among individual high schools, Santaluces High School in Lantana accounted for 117 of PBCC's first-time-in-college students in the Fall 1999 term. Other high schools of origin include Palm Beach Lakes (in West Palm Beach), Wellington (Wellington), John I. Leonard (Greenacres) and Lake Worth (Lake Worth), each of which accounted for more than 80 of PBCC's FTIC students.

(Please see Appendix 'J' for tabular data on high school of origin for FTIC students.)

Graph 64
High Schools of First-time-in-college Students, Fall 1999



Source: Student Database, XSR053J1

BEST COPY AVAILABLE

The typical high schools of origin vary greatly by the location of each campus. Santaluces, John I. Leonard and Lake Worth each accounted for more than 80 students at the Lake Worth campus during the Fall 1999 term. At Palm Beach Gardens, the north county high schools of Jupiter, William T. Dwyer (in Palm Beach Gardens) and Palm Beach Gardens supply the bulk of the FTIC students to that campus.

Only four high schools, led by Glades Central (Belle Glade), supply a significant number of students to the Belle Glade campus, while at the Boca Raton campus, Olympic Heights, Spanish River and Boca Raton (all in Boca Raton), account for the biggest portion of FTIC students. Several Broward County high schools supply a significant number of students to the Boca Raton campus, as well.

(Please see Appendix 'J' for tabular data on high school of origin for FTIC students.)

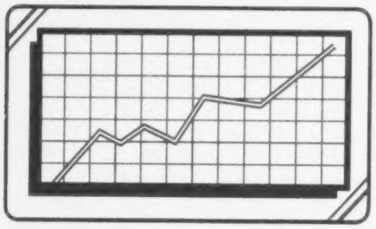
Hours & FTE



Student Semester Hours/Credit Hour Equivalents

For the 1999-2000 reporting year, total enrollment at PBCC in terms of fundable student semester hours (SSH) and credit hour equivalents (CHE) was 338,641.5 – up 6.5% from 1998-99. Much of the increase was due to a change in calculation of hours for College Preparatory classes.

Similar to headcount, Lake Worth accounts for about half of the SSH and CHE at the College. Belle Glade, however, showed the greatest improvement in percentage terms this past year, as SSH/CHE rose more than 26% from the previous year. All four locations showed gains from 1998-99.

(Please see Appendix 'K' for tabular data on 1998-99 SSH, CHE and FTE.)

Graph 66
Fundable SSH/CHE, 1990-91 to 1999-2000

Boca Raton

☐ Non-fundable category

Source: FA-4 report, ST-CLASS-A

Note: **A&P** = Advanced & Professional; **PSV** = Postsecondary Vocational; **PSAV** = Postsecondary Adult Vocational; **Appren.** = Apprenticeship (funded under PSAV-Industrial); **CWE** = Continuing Workforce Education (formerly Supplemental); **Prep** = College Preparatory; **R&L** = Recreation & Leisure; **LLL** = Lifelong Learning

Due to a reclassification of many PSV courses to A&P, mostly in computers, business and biology, there was a large shift in the proportion of hours generated in credit funding categories. Similarly, the change in calculation of hours in College Preparatory from CHE to SSH during 1999-2000 results in a misleading increase in prep enrollment hours.

On the non-credit side, Apprenticeship CHE more than doubled this past year, while other Postsecondary Adult Vocational enrollment was up by almost one-quarter, reversing a five-year downward trend. Continuing Workforce Education (CWE, formerly Supplemental) hours fell by 24% in 1999-2000.

(Please see Appendix 'M' for tabular data on 1999-2000 SSH, CHE and FTE.)

Source: FA-4 series, ST-CLASS-A

BEST COPY AVAILABLE

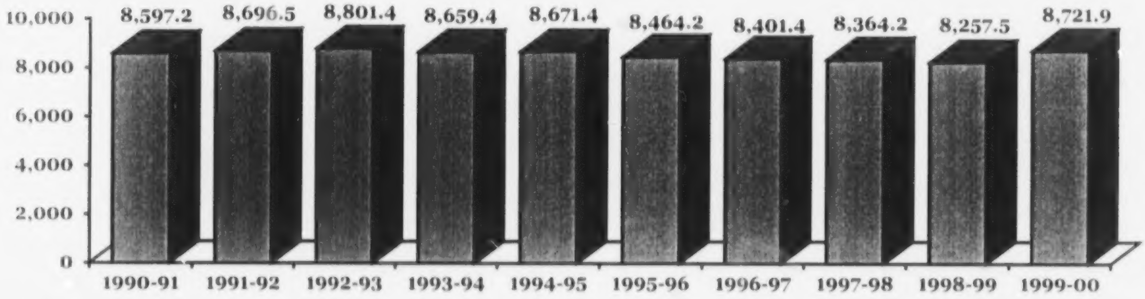
Fundable Full-time Equivalency

For the most part, trends in full-time equivalency (FTE) reflect changes in SSH and CHE. For the 1999-2000 reporting year, fundable FTE increased from 1998-99 levels by 5.6% due mostly to the change in the calculation of College Preparatory FTE.

All four campuses showed increases in fundable FTE in 1999-2000, led by Belle Glade, which was up 26% this past year.

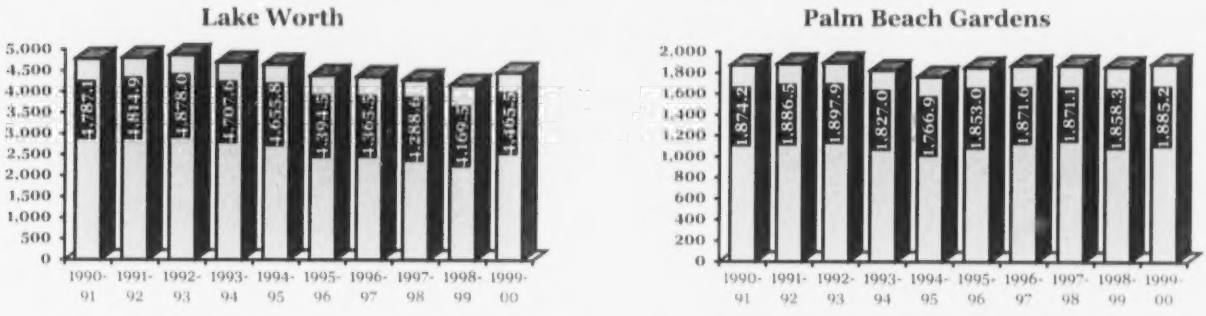
(Please see Appendix 'K' for tabular data on 1999-2000 SSH, CHE and FTE.)

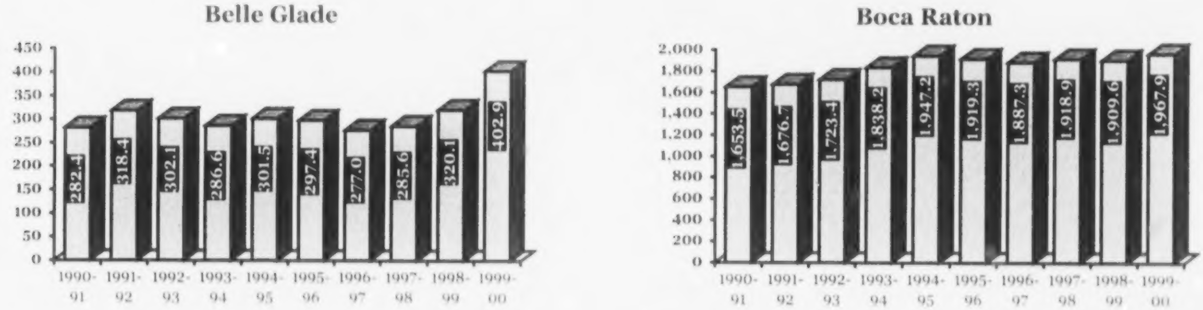
Graph 72
Fundable FTE, 1990-91 to 1999-2000



Source: FA-4 series, ST-CLASS-A

Graph 73
Fundable FTE by Campus, 1990-91 to 1998-99



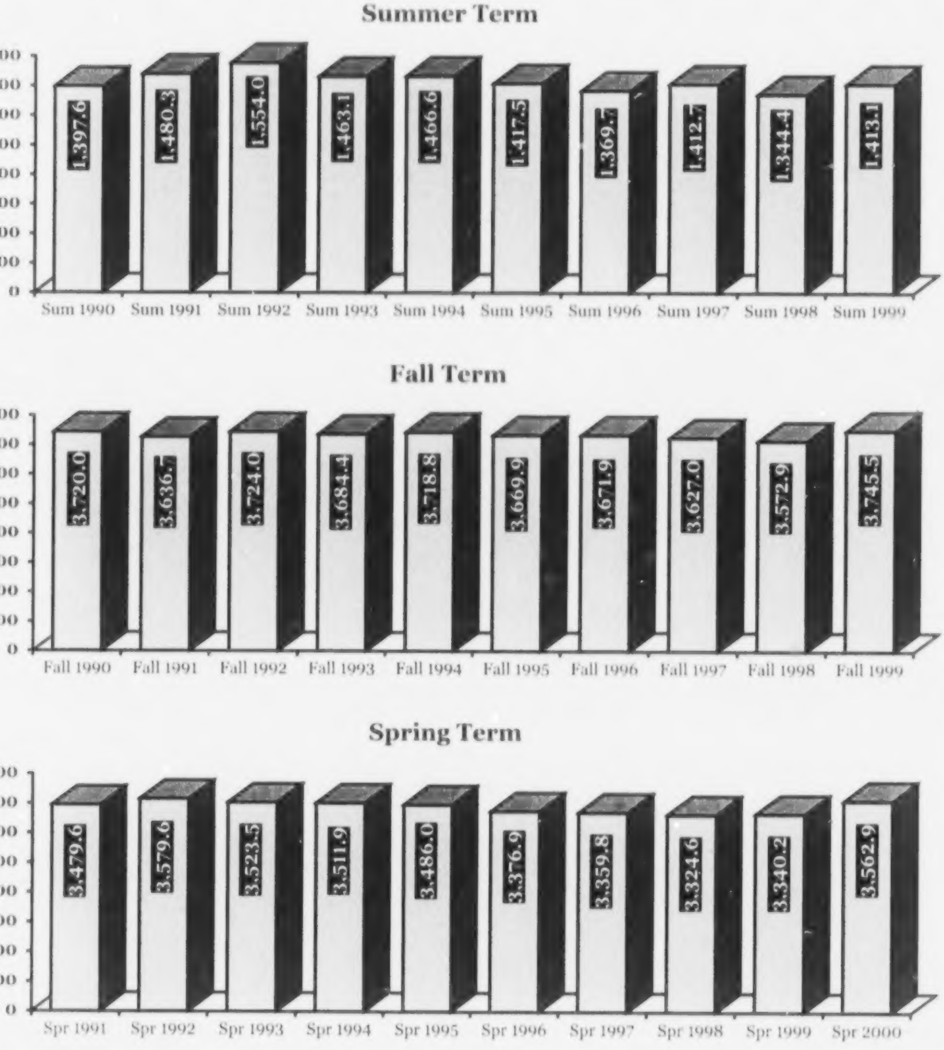


Source: FA-4 series, ST-CLASS-A

Like SSH and CHE, FTE also peaks in the Fall term. Last year, Fall 1999 FTE increased nearly 5%. Spring 2000 FTE was up nearly 7%, while Summer 1999 FTE rose about 5%.

(Please see Appendix 'K' for tabular data on 1999-2000 SSH, CHE and FTE.)

Graph 74
Fundable FTE by Term, 1990-91 to 1999-2000



Summer Term

Fall Term

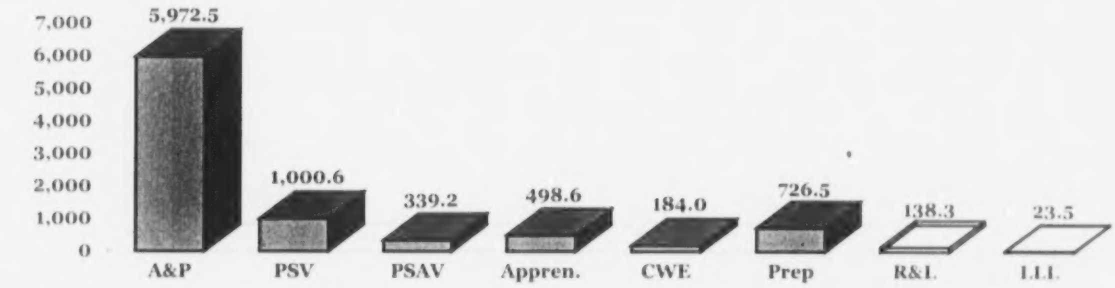
Spring Term

Source: FA-4 report, ST-CLASS-A

Because of differences in how FTE is calculated for credit and non-credit courses, the proportion of FTE in each funding category is slightly different than that for SSH and CHE. In total, Advanced and Professional courses accounted for roughly 67% of the total FTE at Palm Beach Community College, while Postsecondary Vocational credit enrollment contributed 11% to the overall figures.

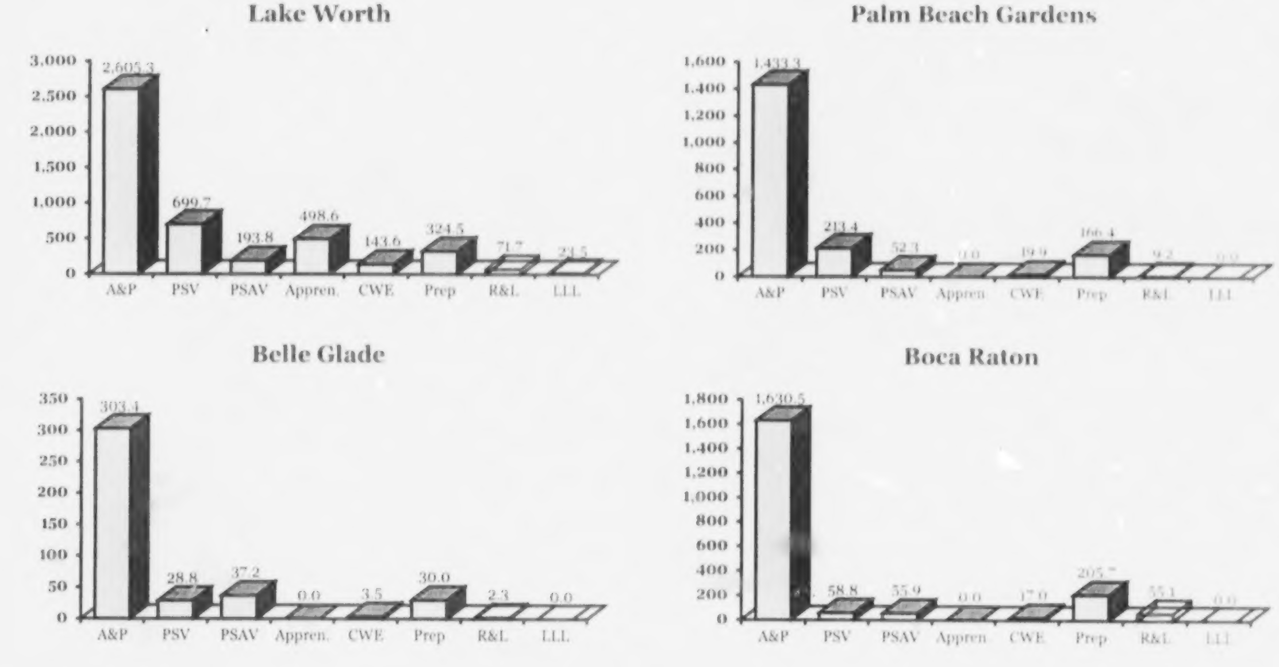
(Please see Appendix 'M' for tabular data on 1999-2000 SSH, CHE and FTE.)

Graph 75
FTE by Funding Category, 1999-2000



Source: FA-4 report, ST-CLASS-A

Graph 76
FTE by Funding Category by Campus, 1999-2000



☐ Non-fundable category

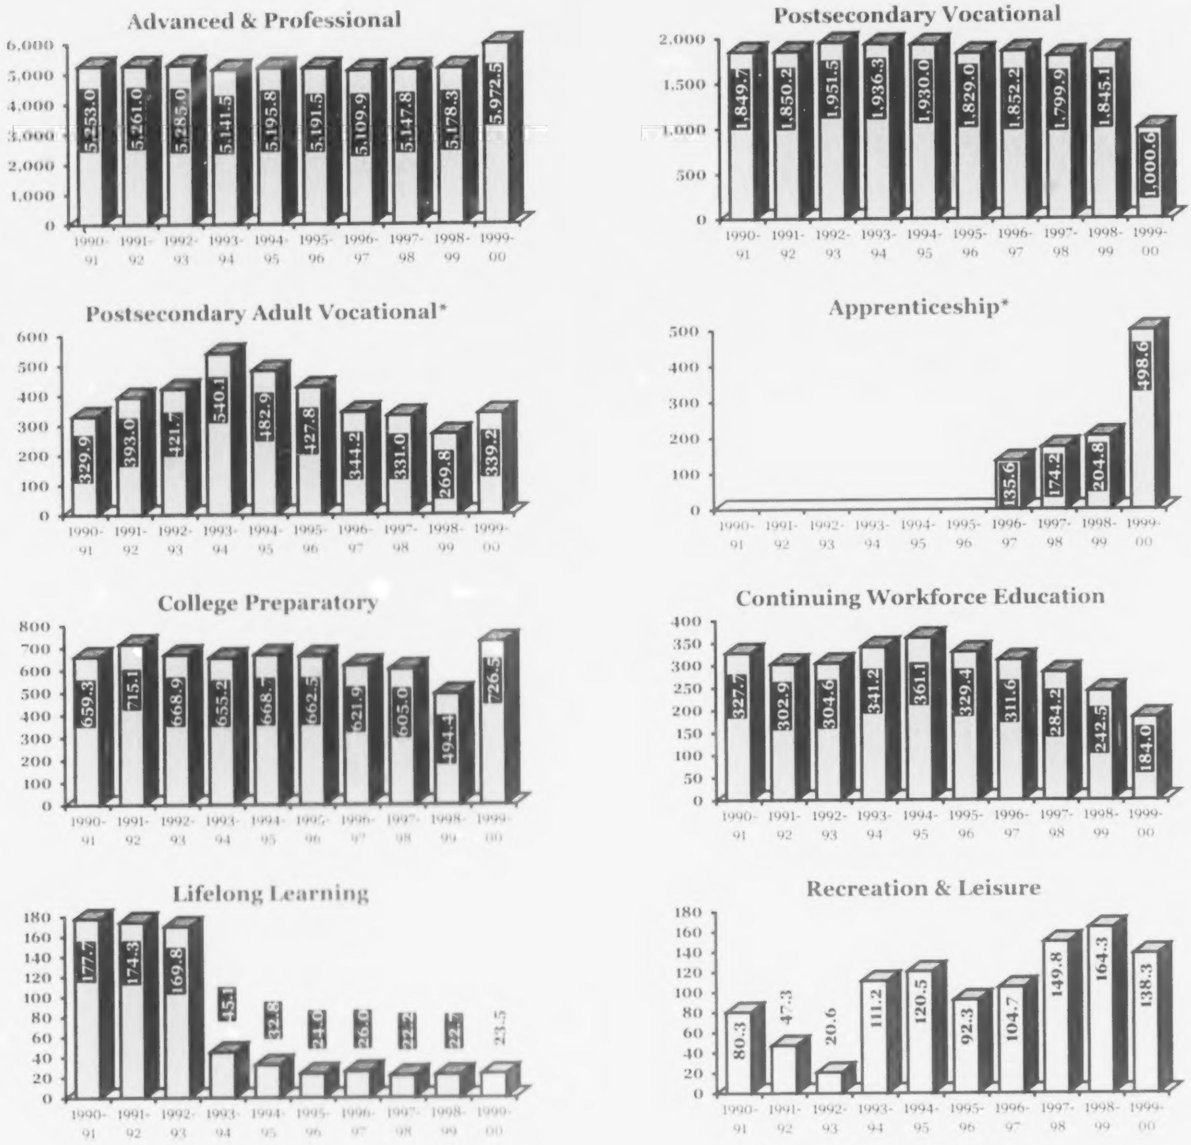
Source: FA-4 report, ST-CLASS-A

Note: **A&P** = Advanced & Professional; **PSV** = Postsecondary Vocational; **PSAV** = Postsecondary Adult Vocational; **Appren.** = Apprenticeship (funded under PSAV-Industrial); **CWE** = Continuing Workforce Education (formerly Supplemental); **Prep** = College Preparatory; **R&L** = Recreation & Leisure; **LLL** = Lifelong Learning

In percentage terms, the change in FTE in a particular funding category will match the change in that category's SSH or CHE. The only exception this year is in College Preparatory, where the FTE was calculated based on the credit formula in 1999-2000 and the non-credit formula the year before.

(Please see Appendix 'M' for tabular data on 1999-2000 SSH, CHE and FTE.)

Graph 77
FTE by Funding Category, 1990-91 to 1999-2000



* Apprenticeship courses were separated from other Postsecondary Adult Vocational courses beginning with the 1996-97 reporting year.

Belle Glade

For the 1999-2000 reporting year, enrollment hours in Advanced & Professional areas at Belle Glade were led by Education (2,461 SSH, +16.5%), Mathematics (2,342 SSH, +75.7%) and Letters (1,957 SSH, +3.4%).

(Please see Appendix 'L' for tabular data on 1998-99 and 1999-2000 departmental SSH/CHE.)

Boca Raton

The highest enrollment in Advanced & Professional categories at Boca Raton was found in the area of Mathematics (12,839 SSH, +4.0%). Letters (11,814 SSH, -1.0%) was second, followed by Education (8,861 SSH, +14.9%).

(Please see Appendix 'L' for tabular data on 1998-99 and 1999-2000 departmental SSH/CHE.)

Weekend Student Semester Hours/Credit Hour Equivalents

Weekend enrollment generated more than 8,600 SSH/CHE during the 1999-2000 reporting year. Most of the hours came at the Lake Worth campus, which accounted for nearly 5,700 SSH/CHE. Almost 1,600 weekend SSH/CHE were generated at Boca Raton.

Districtwide, more weekend enrollment took place during the Fall 1999 term than the Spring 2000 term.

(Please see Appendix 'G' for tabular data on 1999-2000 weekend enrollment.)

Eight-week, Twelve-week and Express Term SSH/CHE

Nearly 13,000 SSH/CHE were generated in the three major mini-terms – 8-week, 12-week and Express (2nd 8-weeks). The 12-week and Express terms each generated about 5,300 hours of enrollment, while the first 8-week term produced more than 2,300 hours.

More than 7,000 mini-term SSH/CHE were generated at the Lake Worth campus, while 3,000 hours were produced at Boca Raton.

(Please see Appendix 'I' for tabular data on 1999-2000 8-week term, 12-week term and Express term enrollment.)

Postsecondary Adult Vocational/Apprenticeship CHE

More than 25,000 Postsecondary Adult Vocational and Apprenticeship CHE were generated in 1999-2000. More than 80% of this was produced at Lake Worth, which is currently credited with all Apprenticeship enrollment.

(Please see Appendix 'H' for tabular data on 1999-2000 PSAV/Apprenticeship enrollment.)

Student Performance

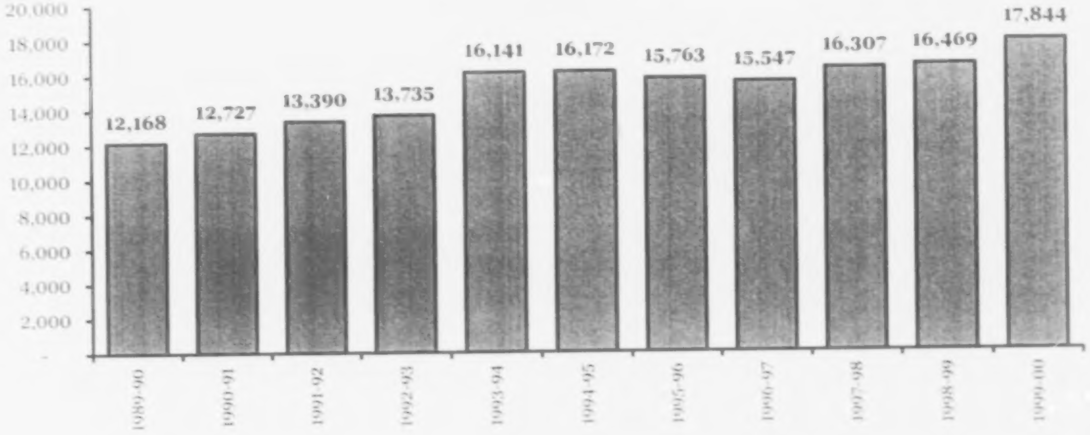
Total Program Enrollments and Completions

Palm Beach Community College recorded nearly 18,000 award-seeking students in the 1999-2000 reporting year. Of those, 2,273 students were awarded their degrees or certificates during the year.

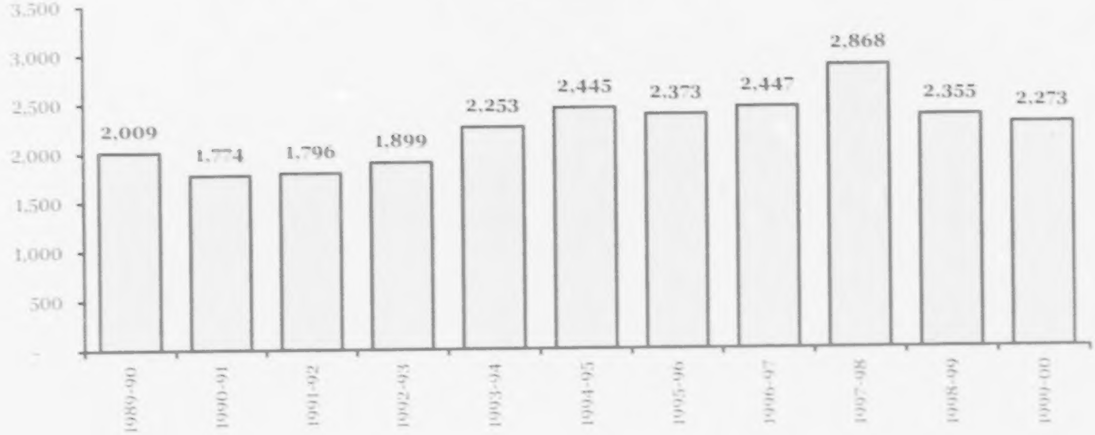
(Please see Appendix 'M' for tabular data on 1999-2000 program enrollments and completions.)

Graph 103
Enrollments and Completions in All Degree/Certificate Programs
1989-90 to 1999-2000

Enrollments



Completions



Source: AAI-A series, Student Database

PBCC recorded more 13,000 associate in arts program enrollments in the 1999-2000 reporting year. In addition, 3,337 students were associate in science majors, and 1,034 were enrolled in certificate programs.

Much of the increase in program enrollment, especially in the associate in science programs, can be attributed to our new PantherNet system, which does a better job of placing students in majors than the prior system.

(Please see Appendix ‘M’ for tabular data on 1999-2000 program enrollments and completions.)

Associate in Science Enrollments and Completions

More than 3,300 students were enrolled in associate in science programs during the 1999-2000 reporting year. The nursing program led all AS programs – a total of 372 students were in the program, while an additional 643 had declared nursing as their major. Business administration, computer information systems, legal assistant, human services, accounting, radiography and child development and education all had more than 100 students enrolled.

(Please see Appendix 'M' for tabular data on 1999-2000 program enrollments and completions.)

Graph 107

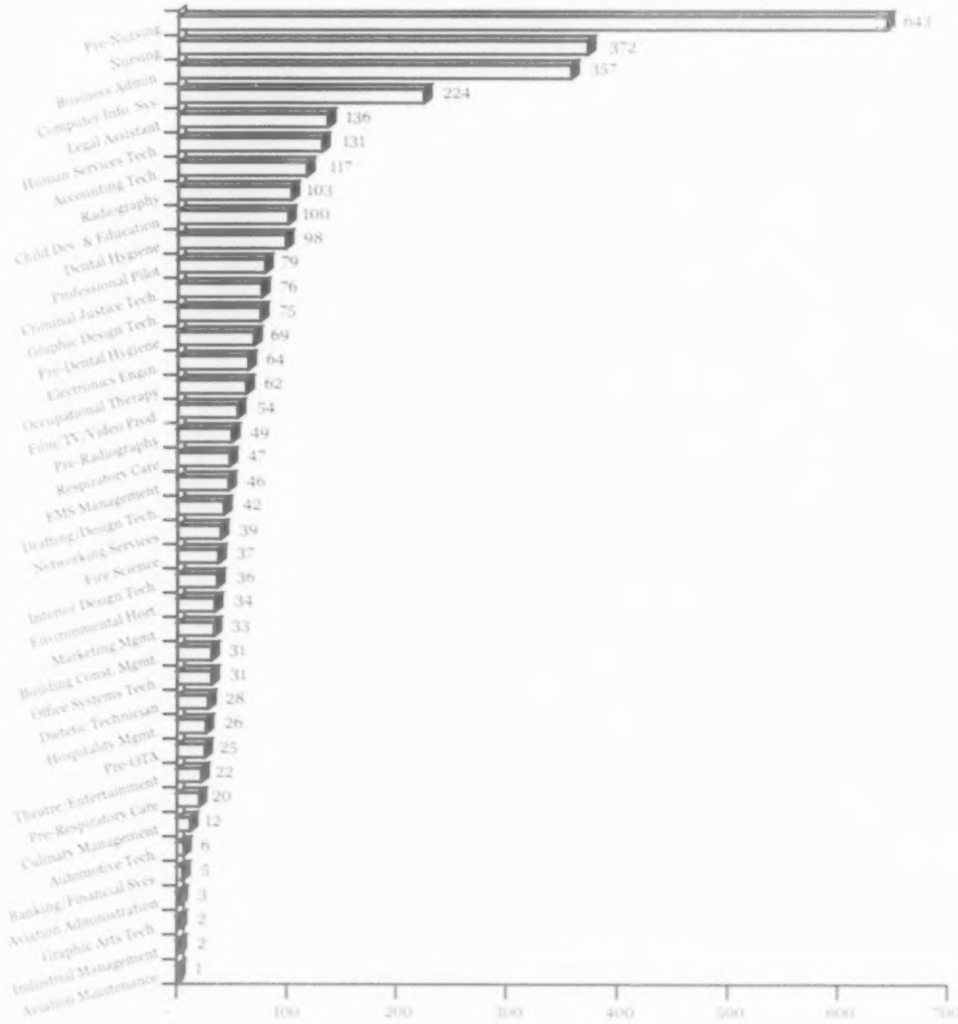
Total Associate in Science Enrollments: 3,337



BEST COPY AVAILABLE

Source: Student Database

There were 425 associate in science degrees awarded during the 1999-2000 reporting year, with more than one-third coming in the nursing program, which graduated 157 students – by far the highest total of any AS degree program. Business administration had the second-highest number of graduates (36), followed by dental hygiene (30). Computer information systems, human services technology and radiography each graduated 20 students or more.

(Please see Appendix 'M' for tabular data on 1999-2000 program enrollments and completions.)

Vocational Certificate Enrollments and Completions

There were 1,034 students enrolled in vocational certificate programs in the 1999-2000 reporting year. There were 301 students in early childhood education*, while plumbing apprenticeship had 156 students. Paramedic and electrical apprenticeship both had more than 90 students enrolled.

(Please see Appendix 'M' for tabular data on 1999-2000 program enrollments and completions.)

* PBCC reported students in Child Development Associate as being enrolled in Early Childhood Education. In Fall 1999, PBCC stopped reporting CDA credential recipients as having completed the Early Childhood Education program. (Please see the footnote on p. 89.)

A total of 367 students earned their vocational certificates this past year, with 129 coming in early childhood education*. The basic law enforcement program had 66 graduates, followed by emergency medical technician (47) and paramedic (41).

(Please see Appendix 'M' for tabular data on 1998-99 program enrollments and completions.)

Graph 110

Source: Student Database

* Child Development Associate is not recognized by the state as a program, but rather as an occupational completion point within the Early Childhood Education program. In Fall 1999, PBCC stopped reporting these students at Early Childhood Education completers. Boca Raton Career and Technical Education hand-counted 224 students who completed PBCC's Child Development Associate program in the 1999-2000 reporting year. PantherNet records indicate 213 students completed the requirements for the OCP equivalent to Child Development Associate.

Graduation Rate

According to a survey conducted by the Division of Community Colleges of 1996 full-time, degree-seeking, first-time-in-college students, 47.4% of PBCC's students had completed a program or were still enrolled by 1998, as compared to 45.4% statewide.

Among part-time students at PBCC, 25.6% had graduated or were still enrolled by 1998 – slightly lower than the 28.5% statewide figure.

Placement of Vocational Graduates

Nearly all (96%) 1997-98 vocational graduates found employment in field or were continuing their education, down slightly from the year before. Of this number, about 89% were placed in their field, while 7% were continuing their education. Less than 4% were neither placed in field nor continuing their studies.

(Please see Appendix 'N' for tabular data on 1997-98 placement of vocational graduates.)

Course Passing Rates

The overall passing rate for all credit and preparatory classes for the 1999-2000 reporting year was 76%. Passing rates were highest at Palm Beach Gardens and Belle Glade, where 80% of courses were passed.

The passing rate on credit classes alone was 77%, while the rate on preparatory classes was about 65%. Palm Beach Gardens and Belle Glade had the highest passing rates among the four campuses in each area.

(Please see Appendix 'O' for tabular data on 1999-2000 grades and passing rates.)

Graph 115
Overall Course Passing Rates, 1999-2000

Cumulative Grade Distribution

In the 1999-2000 reporting year, 72% of the grades awarded were 'C' or better or 'P' (indicating "passing," primarily for college preparatory classes and roughly equal to a 'C' or better). About 10% of all course attempts resulted in withdrawals.

At the campus level, Palm Beach Gardens had the highest percentage of 'C' or better/'P' grades – about 77%.

(Please see Appendix 'O' for tabular data on 1999-2000 grades and passing rates.)

Credit Classes

'A' was the most commonly awarded grade during the 1999-2000 reporting year, accounting for almost 31% of all credit grades awarded. Of all credit course attempts, 10% resulted in withdrawals, while about 2% of classes were audited.

Instructors in credit courses at Palm Beach Gardens awarded 'A's approximately 37% of the time, while Belle Glade students received 'A's 36% of the time. Withdrawal rates were also lowest at these locations.

(Please see Appendix 'O' for tabular data on 1999-2000 grades and passing rates.)

College Preparatory Classes

In college preparatory classes (i.e., mathematics, English, reading, ESOL), 65% of the grades awarded during the 1999-2000 reporting year were 'P,' indicating a pass.

Passing rates for college preparatory classes were highest at Palm Beach Gardens (70%) and Belle Glade (66%). Withdrawal rates were lowest at Belle Glade.

(Please see Appendix 'O' for tabular data on 1999-2000 grades and passing rates.)

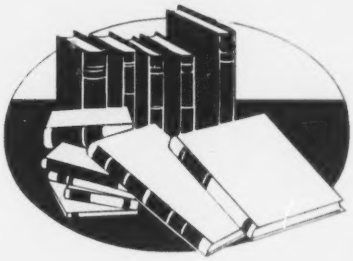
Glossary of Terms



103

Academic Year – The Fall, Spring and Summer terms of overlapping years. For example, 2000-1 (Fall), 2000-2 (Spring) and 2000-3 (Summer) comprise the 1999-2000 academic year.

Advanced & Professional (A&P) – A program area with courses designed to provide the first two years of course work leading to an advanced or professional degree (bachelors, first professional, masters, etc.). It includes both the general education and specialized lower-division courses necessary to complete a transfer degree program. It does not include college preparatory or non-credit courses.

Advanced Technical Certificate (ATC) – A program of instruction consisting of at least 9, but less than 45, credit hours of college-level courses. Students in these programs must have already received an associate in science degree and be seeking an advanced specialized program of study to supplement their associate degree.

Applied Technology Diploma (ATD) – A course of study that is part of an associate in applied science (A.A.S.) or associate in science (A.S.) degree, is less than 60 credit hours, is approximately 50% of the technical component (non-general education) and leads to employment in a specific occupation. May consist of either vocational credit or college credit.

Apprenticeship – A vocational program of three to five years in length registered with an approved registration agency in accordance with state and federal laws and regulations. In this program, a student will receive both classroom and on-the-job training and will be eligible to take the journeyman exam upon completion of the program.

Associate in Applied Science (AAS) – A program of instruction consisting of college-level courses to prepare a student for entry into employment. The degree is awarded when a student completes at least 60 hours of college credit as well as specified performance requirements. The program may include courses that will not typically apply to a baccalaureate program. This allows for general education courses designed to more closely tie to the occupational area.

Associate in Arts (AA) – A program of instruction consisting of courses offered to freshmen and sophomores in baccalaureate programs. This degree will transfer to the State University System and is awarded when a student completes 60 hours of college credit as well as specified performance requirements.

Associate in Science (AS) – A program of instruction consisting of college-level courses to prepare a student for entry into employment. The degree is awarded when a student completes at least 60 hours of college credit as well as attainment of specified performance requirements. Generally, courses taken are more likely to be transferable in the A.S. program than in the A.A.S.

College Preparatory – Courses providing instruction for the development of college-entry competencies in reading, writing, mathematical reasoning and logical thinking and English as a second language (ESOL).

Community Instructional Services – Non-credit instructional courses designed to meet community needs or to provide recreational or leisure-time activities.

Completer – A student who receives a degree, diploma, certificate or other formal award.

Continuing Workforce Education – Courses that are designed for the purpose of upgrading skills of persons who are currently employed or who have been previously employed in an occupational field. This should not include courses that are organized as a unit of a preparatory program of studies. (Formerly known as ***Supplemental Vocational.***)

Credit Course – A course in which college credit is awarded that can be applied towards a degree.

Credit Hour Equivalent (CHE) – Non-credit courses (College Preparatory, Postsecondary Adult Vocational, Supplemental, Apprenticeship, and Recreation and Leisure) are measured in terms of CHE. Thirty contact hours of classroom time = 1 CHE. (Beginning in 1999-2000, College Preparatory courses will be measured in terms of student semester hours).

Dual Enrollment – A course in which the credits or college credit equivalents earned by a secondary (high school) student are applicable to both secondary and postsecondary programs.

Duplicated Headcount – A headcount measure by which students may be counted in more than one category. All categories totaled will add up to more than 100% of the grand total.

Eight-week Term – The first eight weeks of the Fall or Spring terms.

End-of-term Enrollment – Headcount at the end of a given term.

Express Term – The last eight weeks of the Fall or Spring terms.

First-time-in-college (FTIC) – A student enrolled in a course in an instructional area that leads to a degree or certificate who is attending a college for the first time with no credit toward a degree or formal award from any other postsecondary institution.

Full-time – A student who is registered for 12 or more credit hours in the Fall and Spring terms or 4 or more credit hours in the Summer terms.

Full-time Equivalent (FTE) – A standardized measurement of course hours. The formulae that converts SSH and CHE to FTE are as follows: 40 SSH=1 FTE; 30 CHE=1 FTE.

Information Classification Structure (ICS) – A classification system used by the state of Florida to assign courses to clusters, programs and funding categories.

Lifelong Learning (LLL) – Non-credit instruction of a community service nature other than recreational and leisure time.

Native Students – Students who began their postsecondary education at a state university system institution or community college. (PBCC native students began their postsecondary education at PBCC.)

Non-credit Course – A course that does not award college credit that can be applied toward a degree.

Opening Enrollment – Credit and college preparatory headcount at the end of the Drop & Add period for a given term. Included only credit students prior to 1999-2000.

Part-time – A student who is registered for 11 or fewer credit hours in the Fall and Spring terms or 3 or fewer credit hours in the Summer terms.

Postsecondary Adult Vocational (PSAV) – Vocational education for persons who have completed or left high school. Participation in these programs shall not earn credit toward an associate or higher degree.

Postsecondary Vocational (PSV) – Vocational education for persons who have completed or left high school and who are enrolled in organized programs of study for which credit is given toward an associate degree. Such programs shall include certificate programs which award credit that can be applied toward an associate degree.

Recreation and Leisure (R&L) – Non-credit instructional activities designed to develop recreational or leisure time skills.

Returning Students – Students enrolled for the current major term who were also enrolled in a prior term at the College.

Reporting Year – The Summer, Fall and Spring terms of overlapping years. For example, 1999-3 (Summer), 2000-1 (Fall) and 2000-2 (Spring) terms comprise the 1999-2000 reporting year. This is time frame used by the State Board of Community Colleges for official reporting purposes.

Student Semester Hour (SSH) – Credit courses (Advanced & Professional, Postsecondary Vocational) are measured in terms of SSH. One credit hour = 1 SSH. (Beginning in 1999-2000, College Preparatory courses will be measured in terms of SSH).

Supplemental Vocational – See ***Continuing Workforce Education.***

Transfer Students – Students whose last college attendance was at any other regionally accredited college or university, regardless of the amount of time spent in attendance or credit earned.

Twelve-week Term – The last twelve weeks of the Fall or Spring terms.

Unduplicated Headcount – A headcount measure by which students are placed in one category. All categories totaled will equal exactly 100% of the grand total.

Vocational Certificate – A program of study designed to prepare students for entry into an occupation. This type of program does not award a degree.

Note on Inactive Programs. The total completions is greater than the total enrolled due to the fact the some students may have received an award in an inactive program without actually being enrolled in a class during the reporting year. If a student was enrolled during the year in an active program, but received an award in an inactive program, the student was shown as being enrolled in the active program. The completion, however, is still credited to the inactive program.

Note on Program Enrollments. Many students received an award in a program for which that student was not enrolled. For the purpose of this report, such students are shown as being enrolled in the program in which they received their award and removed from the program in which they were previously enrolled. No permanent changes were made to the system.
